Operations.

DON, June 21.—The offi-
atement on aerial opera-
eased tonight follows:
The 20th instant low
and rain greatly hamper-
ng operations. One enemy
was brought down, and
our machines is miss-

sh Troops
rate Trenches.

DON, June 21.—The Brit-
ical communication issued
vening says:
Last night's raids north of
Scottish troops penetra-
man trenches inflicting
casualties on the enemy
and captured a number
oners. A number of dug-
and several machine guns

ere blown up and destroyed.
Nothing of special interest oc-
curred today.

Nothing to Report
from Battle Fronts.

PARIS, June 21.—The official
communication issued this evening
says:
"There is nothing to report
from any of the battle fronts."

American Assaults
Repulsed, Says Berlin.

BERLIN, June 21.—(Via Lon-
don)—Attack by American
troops northwest of Chateau Thi-
erry and by the French south-
west of Noyon were repulsed by
the Germans, according to the
German official communication
issued today. Both the French
and Americans suffered heavy
casualties and some prisoners
were taken by the Germans, says
the communication, the text of
which follows:

"The enemy has kept up violent
reconnoitering thrusts along the
whole of the front. They have
been repulsed everywhere. North-
east of Merri and north of
Albert, British partial attacks
break down with sanguinary
losses.

"Local French attacks south-
west of Noyon and by Americans
northwest of Chateau Thierry
broke down. The French and
Americans suffered heavy losses
and some prisoners remained in
our hands. Southwest of Rheims
Italian prisoners were taken.

"Large and clearly marked
hospital buildings in the valley
of the Vesle between Breuil and
Montigny, which formerly were
used by the French recently have
been the objectives of enemy air
raids."

Austrians Issue
Official Communication.

VIENNA, June 21.—via Lon-
don.—The Austrian official com-
munication issued today says:
"Yesterday the enemy contin-
ued his attacks, with undiminish-
ed violence to wrest from us the
successes we won west of the
Piave. His efforts again were
vain. All his assaults were bro-
ken down before the unflinching
resistance of our troops.

"On a front of twelve kilom-
eters the enemy concentrated
thrusting troops amounting to
eight regiments in order to shake
the wall formed by our brave men.
The tremendous consumption of
their power forced the Italians to
throw reserves after reserves into
the battle. Apart from their sang-
uinary losses the number of pris-
oners also increased daily. Thirty-
two hundred prisoners were cap-
tured on the last fighting day but
one on the Montello alone. Of
these 2,000 were taken by a single
Hungarian infantry regiment.

"The Hungarian regiments,
Austrian reserves and Hungarian
Honveds have added a new and
honorable page to their glorious
history as attackers as well as de-
fenders in hot engagements which
have continued day and night. On
the mountain front artillery duels
prevailed yesterday."

American Forces
Straighten Their Line.

WITH THE AMERICAN ARMY
IN FRANCE, June 21.—By the
Associated Press.—The American
forces northwest of Chateau Thi-
erry this morning further straight-
ened their line by a series of
small but brilliantly executed at-
tacks on the north side of Belleau
Wood.

American artillery at midnight
last night poured projectiles into
the wood east of Chateau Thierry
where there was a host of Ger-
man troops and much enemy ma-
terial. The enemy undoubtedly
was severely punished.

American fire reached highest
concentration in a ten minute pe-
riod when 1200 shells of all calib-
ers fell on one small area. Later
American gunners concentrated
fire on the town of Brasles where
many of the enemy were assem-
bled. Aerial observations today
show the extreme accuracy of the
American fire as of course the
exact effect is not known.

The American troops rushed the
desired positions held by the en-
emy in Belleau Wood without the
customary artillery preparations.
The Germans for the most part
took a few shots and then re-
tired. One enemy post held its
ground and was quickly annihi-
lated.

East of Belleau Wood a thin
line of American skirmishers ad-
vanced, firing as they went and
obtained their objectives without
difficulty. All the operations
were carried out as planned. As
a result the American positions
have been strengthened and we
are better able to withstand an as-
sault when it comes.

Italians Continue
Their Counter-Offensive.

ROME, June 21.—Italian forces
yesterday continued their coun-
ter-offensive on the Piave river
front in the region of Fagare and
Zenson and gained further ground
from the Austro-Hungarians, the
Italian war office announced to-
day.

"For the first time," the state-
ment says, "our air and those
of our allies had the compo-
sitions during American pilots, who
as soon as they arrived at the
front wished to participate in the
battle.

Austro-Hungarian pressure con-
tinued strongly on the Montello
yesterday the war office an-
nounces, but everywhere the in-
vaders were checked and the Ital-
ians counter-attacking gained
ground.

The Austro-Hungarians launched
five heavy attacks on the Ital-
ian lines at Lonson to the west of
Sandona di Piave. Exhausted by
their exceptionally heavy losses
the attackers were forced to re-
tire in the face of the Italian re-
sistance."

The statement issued by the
Italian war office says:
"On the Montello yesterday the

pressure of the enemy continued
strongly but everywhere he was
held by our troops who counter-
attacking regained ground. Ad-
vances attempted by the enemy to-
wards the west and south animat-
ed the struggle, particularly east
of the Case-Gheller-Bavaria line
and in the vicinity of the Ner-
vesa Station.

"The Piave brigade and the
29th and 30th regiments advancing
with admirable elan, captured
400 prisoners and a number of
machine guns. They wrested in-
tact from the enemy two of our
batteries of medium caliber which
were promptly put into action
against the enemy.

"On the Piave the struggle was
concentrated in some sectors.
West of Candela a hostile attack
was completely repulsed.

"More to the south in front of
Fagare and Zenson, our counter-
offensive action began on the
night of June 19-20 has continued
irresistibly and has taken us on
to the positions which we held the
day before.

"The enemy suffered losses
equal to his strenuous resistance.
Several hundred prisoners remain-
ed in our hands.

In the area west of Sandona di
Piave the enemy attempted a
strong action against Lonson
(northeast of Meolo). At first he
was arrested by our fire. He re-
newed his attacks four times in
vain, until exhausted by the ex-
ceptionally heavy losses suffered,
was forced to yield in the face of
the dauntless valor of the Sardin-
ians, of the Sassari brigade, the
151st and 152nd regiments which
were gallantly helped by the 110th
battalion of the 20th infantry,
the Biagino brigade and by a
Berzaglieri cyclist column.

"North of Cortellazzo (at the
mouth of the Piave) parties of
sailors and Berzaglieri daringly
broke into the enemy's lines, cap-
turing 200 prisoners, afterwards
firmly holding the positions. At
Cavazuccherina (at the eastern
end of the swamp region near the
coast) we extended our bridge-
head."

"The aviators, in spite of ad-
verse atmospheric conditions car-
ried out their usual activity.
Enemy machines were brought
down.

"For the first time our airmen
and those of our allies had, as
their companions during American
pilots who as soon as they arrived
at the front, expressed a desire to
participate in the battle.

"The valiant Major Daratta
who had won his 3rd victory, did
not return the 19th instant from
an heroic war flight."

Model Division
Faces Americans.

WITH THE AMERICAN ARMY
IN FRANCE, June 21.—By the
Associated Press.—Why the for-
midable German 28th division was
placed in front of the American
troops northwest of Chateau Thi-
erry and also why a prize regim-
ent of that division now is in
the front line is shown by a let-
ter taken from a prisoner. The
letter was written June 10 by
Grenadier Landauer of the gren-
adiers regiment one hundred and
ten, to his relatives in Germany.
It is Grenadier Landauer himself
who is the prisoner and his letter
is eloquent testimony as to the
impression that the Americans
have made on the German emper-
or's best troops. The letter reads:
"As far as my health is con-
cerned I am faring well. We are
again in the front line because the
American division opposite us has
achieved some success and we, as
a model division are to make good
this loss.

"At present we are in reserve
in a small wood where we have
made dugouts and furnished them
with all sorts of stuff from a near-
by inn. Of course, we are getting
all sorts of knocks from the enemy
artillery, which, especially at
night, shoots accurately."

Letters taken from other pris-
oners, which had been written to
them by German civilians said
that they were safe notwithstanding
the air raids made by allied
aviators.

NEGRO DIES OF
BAYONET WOUND

ROCKFORD, Ill., June 21.—
Private Richard Duffey, negro,
died at Camp Grant base hospi-
tal last night from a bayonet
wound inflicted by Corporal Philip
J. Larkin, Whitewater, Miss.

Orders had been issued for-
bidding negro labor soldiers to
mingle with an increment of
negro selectives who had just
arrived in camp. With fixed
bayonet Corporal Larkin had
shoved back colored soldiers who
were trying to get into the crowd
of newcomers. A number final-
ly attempted to rush the line and
Duffey was so seriously
wounded that he died soon after-
wards.

Larkin did not realize, it was
said, that the bayonet had en-
tered Duffey's body. He was
promptly exonerated.

JAPANESE AVIATOR
KILLED IN BATTLE

PARIS, June 21.—Sergeant Ko-
bayashi, the Japanese aviator in
the French service, has been killed
in an aerial battle. He was
fighting against a number of en-
emies when his machine was set
on fire by an incendiary bullet. He
jumped from his airplane at the
height of about 9,000 feet and
fell behind the French lines.

Lieutenant De Turenne has
brought down his tenth enemy
plane and has become an "ace."

ST. LOUISAN KILLED.

St. Louis, Mo., June 21.—Lieut-
enant James R. Wheeler of St.
Louis was killed this morning
when the machine in which he
was flying with John N. Rafter,
cadet, fell one mile from Scott
Field, near Belleville, this morn-
ing.

GEN. CROWDER
EXPLAINS "WORK
OR FIGHT" ORDER

Provost Marshal Is-
sues Instructions To
Draft Boards

(By The Associated Press)
WASHINGTON, June 21.—In-
structions to draft boards were
issued today by Provost Marshal
General Crowder explaining and
amplifying the "work or fight"
order under which after July 1 all
men of draft age regardless of
their classification must engage in
employment held to be productive
or join the army. "When it has
been determined a person in de-
ferred classification is an idler or
is engaged in non-productive ser-
vice," says the instructions, "clas-
sification and order number of
such person will be withdrawn
and he will be immediately in-
ducted into the military service."

Several specific rulings are
made as to the effect of the order
on certain classes named as non-
productive. In the case of sports
and amusements, the language of
the order is repeated with empha-
sis, but without mentioning pro-
fessional baseball. Baseball play-
ing "at present" is regarded as
non-productive tho there will be
no ruling until an individual case
has been appealed from a local
board.

Managers, cooks, clerks and
other employees not engaged in ac-
tual serving of food and drink in
public places are exempted from
the section declaring such service
of food non-productive.

Store executives, managers, su-
perintendents and heads of special
departments, traveling salesmen,
registered pharmacists, delivery
drivers and men doing heavy work
are not included among clerks and
salesmen of mercantile establish-
ments classified as non-productive.

(Chauffeurs public and priva-
te) are eliminated from the non-pro-
ductive class unless they engage
in work held to be non-productive
in addition to their mechanical
duties. This feature of the in-
structions attracted attention be-
cause it would class as useful a
family chauffeur who performed
no other service and would send
him into the army if he also acted
as butler or handy man around
the house.

Cincinnati, O., June 21.—
Chairman August Herrmann of
the National Baseball Commis-
sion in a statement which was
sent to Provost Marshal General
Crowder today says 258 base-
ball players of the 309 carried
on the reserve lists of the sixteen
major league clubs will be forced
to seek other employment. It
is the amended selective service
regulation issued from Wash-
ington today are strictly en-
forced.

"If the regulations as issued
are to be applied to these 258
ball players of the major leagues
that are affected," said Chairman
Herrmann's statement, "it will
absolutely crush a business that
has more than \$8,000,000 capital
invested exclusive of the value
of their franchises and
players."

In his statement Chairman
Herrmann said:
"The book value of the com-
bined plants of the sixteen clubs,
not including the franchise value
of the players is \$8,637,754.12,
while the amount subscribed by
the officials and stockholders of
the various clubs for Liberty
Bonds amounted to \$8,522,450-
00."

The statement brought out the
fact that of the 531 reserves
players on major league clubs on
October 1st, 1917, 91 or 17.1 per
cent have volunteered and 63, or
11.8 per cent have been drafted
into service. In this connection
Chairman Herrmann says:
"I am quite sure that no other
line of business or occupation
can make a better showing than
this."

The statement informs Gener-
al Crowder that the average
salary of the players who volun-
teered was \$2,521.24 and those
who were drafted \$2,441.26 for
a period of six months only.

Chairman Herrmann added:
"So it cannot be held that
they sought service in order to
benefit their condition from a
financial standpoint."

WHALES AND SHARKS
KILLED BY GUNFIRE

PHILADELPHIA, June 21.—
Masters of ships arriving here re-
port that a number of whales,
sharks and porpoises have drifted
ashore on the north Atlantic
coast between Barnegat and Cape
Henry, having evidently been killed
by gunfire or by the explosion of
bombs or shells below the sur-
face. The bodies of seven whales
lie on the beach between Cape
Henlohen and Cape Henry, prac-
tically torn to pieces, having ap-
parently been mistaken for sub-
marines and fired at.

Hundreds of porpoises have
drifted ashore all evidently hav-
ing been killed by explosions.

WILSON WALKS

Washington, June 21.—Presi-
dent Wilson walked today from
the White House to the state, war
and navy building where he con-
ferred for half an hour with Sec-
retaries Baker and Daniels. The
subjects discussed were not dis-
closed. The president returned in
a drizzling rain but refused the
offer of an umbrella.

BULLETINS

KANSAS CITY, Mo., June 21.—
J. R. Jackson, local cashier of a
film company, tonight wrote a
confession, according to the po-
lice in which he stated he mur-
dered his wife whose body was
found beside the Chicago, Burl-
ington & Quincy tracks near
Shelbina, Mo., last Monday.

LONDON, June 21.—Dr. von
Seydlar the Austrian premier left
Vienna at mid-day today for Aus-
trian headquarters to submit the
resignation of his cabinet to Em-
peror Charles, says a dispatch to
the Exchange Telegraph from
Zurich.

WASHINGTON, June 21.—An
agreement for an increase of 45
cents a ton on the government
price for iron ore, effective next
July 1, was reached late today
between the war industries board
and the steel committee of the
American iron and steel insti-
tute. It is understood that there
will be no increase in the price
of steel.

WASHINGTON, June 21.—A
credit of \$15,790,000 to Greece
the first under the new financial
agreement between that country
and the United States was an-
nounced today by the treasury
department. This brings the to-
tal of all credits to \$5,970,350-
000.

WASHINGTON, June 21.—Word
reached the state depart-
ment today from the Spanish
ambassador at Berlin that the
German government has agreed
in principle to a conference with
representatives of the United
States to discuss the treatment,
welfare and exchange of pris-
oners.

LONDON, June 21.—Lieuten-
ant Vincent Flynn of New Jersey
attached to the British Royal Air
Force, was killed at Chesshire
yesterday. His machine collided
with another airplane in which
there were two British flyers.
These airmen also lost their
lives.

BUFFALO, N. Y., June 21.—
W. O. Thompson of Ohio State
University was today elected
president of the International
Sunday School association and
Prof. E. O. Excell of Chicago was
elected treasurer.

WASHINGTON, June 21.—
General Semenov's force of Cos-
sacks in Siberia has been defeat-
ed by the Bolshevik troops and
are retreating into Chinese terri-
tory. The state department was
advised today in a despatch sent
from Harbin last Wednesday.

Latest previous information re-
garding the general and his army
at the state department was that
they were fighting on the river
Onan, some 200 miles east of
Chita. His force then was said
to number 2,000 men. His main
effort is to control the trans-Si-
berian railway.

WASHINGTON, June 21.—
Sinking of the American Steam-
er Schurz in collision with the
American Steamer Florida off the
North Carolina coast early to-
night by the navy department,
one seaman was killed, but all
others of the Schurz's crew were
saved.

The collision occurred at 4:40
o'clock this morning ten miles
southwest of Cape Lookout. The
Schurz was adrift for two hours
after being struck and the Flor-
ida stood by to take off her ship's
company. The Schurz was the
former German ship Geier of
1,600 tons burden, 25 feet in
length. Manuel Goveia, Jr., of
Honolulu, was the man killed.
The survivors were being taken
to an Atlantic port when the re-
port reached the department.
Nothing was given out as to the
circumstances of the collision.

UNDER MILITARY
INTELLIGENCE SECTION

WASHINGTON, June 21.—
Army censorship is to be placed
directly under the military intelli-
gence section of the general staff.
It was learned today with Colonel
Marlborough Churchill, head of
the section as chief censor. Major
General Frank W. McIntyre, who
has acted as chief censor, will be
relieved of that duty and contin-
ued in his post as chief of the bu-
reau of insular affairs.

The duties of the chief censor
include passing judgments on ques-
tions submitted to the department
in connection with the voluntary
censorship observed by the press.

TWO SOLDIERS ARE
KILLED BY EXPLOSION

BALTIMORE, June 21.—Two
soldiers were killed and a third
severely injured by the prema-
ture explosion of a trench mor-
tar bomb at Aberdeen, Md., yes-
terday. Secretary Baker and
several ordnance officers were
standing less than 300 yards
away at the time but as the ex-
plosion occurred in a bomb
proof enclosure, none of the
party was endangered. It was
declared at the proving grounds
today.

CATCHER DRAFTED.

New York, June 21.—Catcher
Herold Shel, of the New York
American League Baseball Club
was ordered today by his local
draft board in St. Louis to report
at Jefferson Barracks, Mo., June
27.

BRITISH CASUALTIES

London, June 21.—British
casualties reported during
the week ended today aggregated
36,620.

U. S. AIRPLANES
MAY ATTEMPT TO
CROSS ATLANTIC

British Officer Urges
Flight to Prove Fea-
sibility of Plan

(By The Associated Press)
WASHINGTON, June 21.—Big
American air and sea planes
should be flying across the At-
lantic to reach the front by next
summer, Major-General W.
Branner of the British air min-
istry said here today in a formal
statement to the press. He is in
Washington to co-operate with
American aircraft officials and
believes that a pioneer trans-At-
lantic flight should be attempt-
ed without delay.

"An enterprise which must be
carried out as soon as possible,"
General Branner said, "is the
flight of the Atlantic. There is
really no reason why a consid-
erable number of airplanes and
seaplanes should not cross the
Atlantic during next summer.

The fact that the British air
council had definitely decided up-
on trans-Atlantic aircraft flights
in order to find a route for the
movement of American-made
aircraft to the front. His mis-
sion in this city has to do with
arrangements for the pioneer
flight in which it is hoped the
United States government will
co-operate.

It is expected the initial flight
will be made this autumn in a
machine of British make, prob-
ably a seaboat starting from
Newfoundland and touching at
the Azores and Portugal before
arriving in Ireland. It has been
estimated the trip can be made
in forty hours of flying. Plans
under consideration call for
crews of our men, composed of
an engineer, relief pilots, and a
navigation officer.

General Branner said, the
flight depended upon three fac-
tors: Engine reliability, weather
and successful weather forecast-
ing. In his conference with
American officials, it has been
determined that very accurate
forecasts of weather for the
whole course can be made and
the new British high power
Rolls-Royce engine has fully
demonstrated its reliability.

Either a seaboat or a large
airplane equipped with two of
these 375 horse-power engines,
the general said, would have
ample engine power to make the
trip probably at an average al-
titude of 5,000 feet. Liberty
Motors are of a higher horse-
power but have not been used in
sufficient quantity as yet in the
submarine of British officials to
make certain their reliability.

They are convinced, however,
that by next year the motor will
be the machine relied upon to
carry to Europe the long range
bombing planes of American
manufacture upon which the
British are largely relying in
their determination to carry
bombing raids to Berlin.

It was also disclosed that the
British have recently developed
a new airplane engine which
marks a greater stride forward
in the single seated combat ma-
chines than any previous de-
velopment. It is an air cooled
"radical" engine which greatly
reduces the horsepower weight
and gives high driving power to
combat machines. One of these
engines is expected to reach the
United States soon.

No exact figures on perfor-
mance of the new British fight-
ing engine are available but it
is known to have attained a
speed of 141 miles an hour and
is believed to have exceeded 150
miles an hour at an altitude of
3,000 feet. The best previous
speed of fighting planes has not
been more than 135 miles per
hour.

"The sooner a pioneer proves
the flight not only is possible but
comparatively safe," General
Branner said, "the better can
the wonderful resources of
America be employed toward
winning the war. Once this has
been established, America's out-
put of big bombing machines
can proceed to Europe by air and
so save the shipping that is so
invaluable for other purposes."

The attack on Germany by
air, he said, had already been
definitely started.

"It will grow steadily," he ad-
ded, "in volume and efficiency. By
degrees all the vital points in
Germany will come within our
reach.

"America has a wonderful op-
portunity of pushing the ad-
vantages of aerial supremacy to
the utmost.

"The progress of aviation dur-
ing the last four years has been
little short of marvelous. In a
few years the instrument of
warfare is an instrument of
peace and so appalling that it may
force civilized nations, at all
events in Europe, to agree to
abandon war among themselves
altogether."

KILLED IN COLLISION

Washington, June 21.—Chief
Quartermaster Byrd Edwin
Sylvester, of Plainville, Minn.,
and Andrew Byrne Blair,
Jr., of Richmond, Virginia,
were killed yesterday at
Fensacola, Fla., in an airplane
collision during a formation
flight.

LEADING AMERICAN
ACE REPORTED MISSING

First Lieutenant Baylies Fails
to Return After Unequal Fight
With Four Enemy Planes.

Paris, June 21.—The leading
American ace in the French fly-
ing corps, First Lieutenant
Frank L. Baylies, of New Bed-
ford, Mass., is missing after an
unequal fight with four German
machines.

On June 17, Lieutenant Bay-
lies with Sergeants Dobonnet
and Macari, of the Stork Escadrille
had finished several hours pa-
trolling and were about to re-
turn at twilight when they sight-
ed four single seater airplanes.
They paid little attention to the
other machines believing them to
be British.

It turned out the machines
were German and all of them
seized an opportunity to attack
Baylies simultaneously.

The enemy had advantage of
position and number but Baylies
put up a game fight. He at-
tempted to take one of them
against the Germans but his
machine caught fire and fell
after a few moments about six
miles within the German lines.

Sergeant Macari thinks that
Lieutenant Baylies may have had
a good landing if he escaped
death

Soldiers at Camp Dodge, Iowa, it is said are not worrying over the heat as the camp is cooler than the city of Des Moines because of the new ventilation system. It is too bad that a like system cannot be installed at Camp Shelby and some of the other southern cantonments, where the soldiers are in training with the thermometer at 110 degrees.

The struggle for woman's suffrage goes on with the cause being constantly given new support from political leaders. But the advocates of these well deserved rights must not overlook the fact that the national association opposed to woman's suffrage is very active indeed. Oklahoma is the twenty seventh state to have an opposition organization affiliated with the national body.

PAGE TWO hdmh
Now that German is being so generally dropped from the courses of schools and colleges there has come a demand for the study of the Russian language and the bureau of education is behind this movement. If the knowledge of the language will lead to a thorough understanding of the Russian people and the Russian situation it would be a fine thing to introduce the study of the language everywhere. Thus far Russia is the enigma of the war.

Pythians show PATRIOTISM.
Uniform rank Knights of Pythias of the state usually hold an annual encampment, but this year on account of the war it will not be held. The organization in Illinois has 2700 members and has the remarkable record of 1400 of that number in the army or navy service. With more than 50 per cent of the members enlisted, certainly the uniform rank can set a new standard in service flags.

BOYS HAVE THEIR CHANCE.
Boys these days are coming into their own as never before especially with reference to the matter of employment. The junior working reserve committee which operates in connection with the Washington department is appealing to women to "employ no man at any kind of work that a boy can do without injury to himself." It is a country wide slogan, brought about by the great demand for man power and the necessity of releasing all possible men for food production and other essential war time work.

TOO MANY FOREIGNERS.
The reported strike at the Curtiss aeroplane plant seems especially unfortunate following the recent investigation of the plant made by senatorial committee developing that the work has been so thoroughly disorganized and so little has been accomplished where so much was anticipated. The senators were of the opinion that aside from the mistakes made by the government in continually changing specifications that there were too many foreigners employed at this plant. It begins to look as if the delay in the manufacture of aeroplanes were a studied matter.

SOLDIERS' OCCUPATIONS GIVEN CONSIDERATION.
The friends and relatives of soldiers who enter the training camps and are qualified for special service of one kind or another will be interested in knowing how large numbers transfers are made from one unit to another because of occupational qualifications. Recently an average of 40,000 transfers has taken place each week for occupational reasons and the total number of

transfers recorded is 240,000. Committee organizations exist in the various army camps thru which enlisted men and commissioned officers are qualified in accordance with their occupational qualifications. In some of the camps now 2,500 men are daily received and it requires nearly 200 interviewers to meet these men and secure the facts relating to their previous occupation, education and experience along special lines. A man who has been trained along some special mechanical line can be assured that the government will speedily take advantage of that technical training when he enters the service.

THE NEW ORDER FOR WORKERS

The new fight or work regulation as explained by the department at Washington will mean some very radical changes in working forces. The biggest changes will be in hotels, restaurants and stores. It will not be long until a male store clerk will be conspicuous, for unless the work is too heavy, girls are to be employed. Elevator men, bell boys, waiters and footmen are only a few of the places that the provost marshal declares must be filled by girls and young women. But after all, the order is no more drastic than others previously given and to which the public has made ready acquiescence. One Jacksonville shoe store already has a young lady clerk, the same is true in a meat market and it will not be many days until every girl who wants employment can find it in the stores or other business houses. Meanwhile the clerks, waiters and young men employed in places of amusement are already beginning to turn their attention to farming and other occupations that are classed as essential.

MEASURING THE CHILDREN

The government's effort to have statistics gathered with reference to the weights and measurements of children is meeting with general response not only to this county and state but elsewhere in the union. Valuable facts are thus being gathered and also some problems are brought to attention. During the last sixty days it is estimated that 5,000 children in America have been weighed and measured.

Some of the reports reaching the children's bureau of the department of labor in Washington show poverty conditions in some localities that menace the health of the children. Among the poorer families in some of the eastern cities the food the children need for proper development is so expensive that the father's earnings are not enough to meet the cost. In such cases the investigators can recommend the kind of food needed but they are powerless to suggest the methods by which the mothers are to procure the food. In some of the eastern cities milk is now 16c a quart and other needed food is bringing similar prices.

EQUALITY OF SACRIFICE.

The New York Times recently said editorially: "No man or woman who has acquired a Liberty Bond is relieved from the duty of buying War Savings Stamps. To leave the Stamps plan of lending money to the Government to those of narrow means and to the young people is to be careless of the cause of America and her allies. Does the average man or woman who earns a substantial salary or god wages have only idea of the sacrifices made by the small investors in War Savings Stamps to do their 'bit' in the war? It is often a story of silent heroism. If those in fairly easy circumstances emulated the very poor whose souls are filled with unyielding resolution to do their share to win the war, what a boom there would be in the Government's receipts from sales of War Savings Stamps." Now is the time for everyone, no matter what his station in life may be, to make as great a sacrifice for his Government and for humanity as is made by the most humble of our citizens. Everyone on or before June 28 should pledge himself to save to the utmost of his ability and buy War Savings Stamps with his savings. There should be an equality of sacrifice.

JULY FOURTH TO HAVE DEEPER MEANING.

There will not be as much noise about Fourth of July celebrations this year but there will be more general and hearty observance of the nation's birthday than ever before. Various patriotic organizations in the U. S. are endeavoring to have Fourth of July observances take on a deeper and more patriotic meaning this year and it will not be difficult thing to do when the public mind and heart is so intent upon subjects relating to liberty. In Chicago there will be a flag raising program, together with the singing of patriotic songs and the reading of the president's and governor's messages. A welcome will be extended to new citizens and there will be flags and emblems galore. The most significant part of the program will be the filming of various nationalities taking part in the program, with the purpose of having this picture shown abroad to prove the falsity of the German claim that unity of action and interest is lacking in this country. In France and possibly in England July 4th will be as much a holiday as it will be here, for in France preparations have already been underway for some time.

One French leader is urging this observance. "Flowers must be deposited before the statue of Washington and the American flag must be raised at the same hour in all cities, towns and villages in France. In all the schools the same moment teachers should explain the meaning of the celebration and the reasons why France and America should remain united

forever. Let us celebrate July 4th which in 1776 saw the birth of American liberty and one of the noblest nations of the world."

RIPPLING RHYMS
By Walt Mason

THE RISING COST.

They've raised the cost of rubber tires until I roundly swear, by all the green graves of my sires, that it is most unfair. I'm told by Jinks, the gifted gent, who runs the rubber store, "The price has risen fifteen per cent, and soon will rise some more." Up goes the price of motor oil, it's doubled in a year, and I am pawing up the soil and beefing like a steer. I go to buy the inner tube I've needed since July, and find some avaricious boob has sent the price sky high. When punk mechanics fix my boat—and it needs fixing still—they strike a most discordant note when they announce their bill. "The price of gas," the dealer cries, "for kicking gives no grounds, but it is shortly bound to rise, by well known leaps and bounds." My feet are seamed with ghastly scars, put there by thorns and stones, for I have cut out motor cars—they cost too many bones. O'er hill and dale I push my limbs because I can't afford to blow myself for plugs and rims for fabric tires or cord. I walk the long streets of the town, I climb the schoolhouse hill, and now and then I sit me down, and cuss old Kaiser Bill. Because he played at being Mars, and thought the world his meat, I've had to cut out motor cars, and travel on my feet. Because he sprung a martial note with bugles and with horns, I've had to soak my handsome boat, and exercise my corncobs.

ANOTHER SWEATER SHIPMENT MADE

Red Cross Knitting Department Sent Forward 235 Sweaters Yesterday—County Quota Requirement Not Yet Met.

Reports from a number of the precincts of the county recently came to the knitting department of the Red Cross chapter and made possible a shipment yesterday of 235 sweaters. Two previous shipments have been made, which together with the one Friday, according to the statement of Mrs. F. J. Heintz chairman of the knitting committee make a total of 680 sweaters to apply to the present quota of 1200. Since Tuesday, June 25, is the day fixed for completing the quota, it is quite evident that the knitters of Jacksonville and Morgan county will have to be allowed some days or weeks of grace.

The state organization makes the county allotments and the task of meeting the conditions is then up to the county knitters. The records seem to indicate that just at present the women of the county precincts are working with more rapidity than those in the city of Jacksonville. However, as soon as all the women thoroughly understand what the requirements of the national and state organizations are, they will no doubt work with still greater rapidity and diligence.

The garments from county precincts included in the shipment yesterday were as follows: Waverly—56 sweaters, Chapin—15 sweaters, Woodson—23 sweaters, 11 pairs of socks and 3 pairs of wristlets, Franklin—40 sweaters, Lynnville—4 sweaters, Murrayville—30 sweaters, 2 pairs wristlets and 9 pairs socks, Literberry—30 sweaters.

RIDGELY ENCAMPMENT ELECTED OFFICERS

At the regular meeting of Ridgely Encampment No. 9, held Friday evening officers for the ensuing term were elected. Four candidates were initiated into the mysteries of the order. They were: L. A. Fitzsimmons, S. F. Sooy, S. D. Jones and H. W. Simpson. The officers selected are:

C. P. John Schofield, H. P. Charles Balesley, S. W. Charles S. Black, J. W. W. J. Brown.

SUCCEFUL PICNIC.

The picnic of the Congregational church Sunday school and friends yesterday afternoon at Nichols park was a fine success. A host of little folks enjoyed the occasion and many of a larger growth. It was a source of regret that the worthy pastor, Rev. W. E. Collins, had to leave to fill an engagement to aid in War Savings Stamps meeting at Murrayville. All went as merrily as a wedding bell and no untoward incidents took place to mar the happiness of the day.

PYTHIANS TO ATTEND CHURCH SERVICE

Knights of Pythias will attend services at Central Christian church Sunday morning in commemoration of the fifty fourth memorial day of the order. The sermon will be by Rev. M. L. Pontius. Lodge committees are ranging for the service include Jacksonville lodge No. 152; W. L. Armstrong, George A. Wise, John S. Sheppard; Favorite Lodge No. 376; J. F. Claus, Charles Ratichak, Oran Cook.

FOUR SISTERS ARRIVE.

A fine Vele car arrived in the city yesterday from Murrayville and it contained four sisters, daughters of James K. Cunningham. They were Mrs. Edgar Blakeman, Mrs. Nettie Million, Mrs. H. T. Barton and two children and Miss Stella Cunningham, chauffeur.

BIG EVENT AT MERRITT

This evening at Merritt there is to be a flag raising, festival and various fine things. Rev. J. O. Kirkpatrick of this city and Rev. Mr. Johnson, pastor of the Baptist church at Winchester are to be the speakers.

BIG RESULTS FROM FOOD CONTROL RULE

Campaign of Conservation By Food Administration With Reference to Wheat Products Has Been Remarkable in Its Success.

That the campaign of conservation and regulation waged by the food administration with reference to wheat products has brought results is shown in the following statement from a recent publication issued by the food administration:

"The results of the voluntary control of food have been enormous. The surplus of the 1917-18 wheat crop based on normal consumption would have been 20,000,000 bushels. If the present rate of saving by the American people continues, we shall be able to deliver to our allies from this crop possibly 170,000,000 bushels of wheat, 150,000,000 bushels of which will represent the voluntary saving of the American people. The delivery of wheat has enabled the allies to meet the more immediate and pressing needs of their people and to keep up the bread ration of their soldiers."

Analysis of Pork Figures.

"As to our exports of meat, the results of conservation are even more remarkable. The analysis of figures in regard to hogs indicates that we were 5,000,000 hogs short when the conservation campaign was started. Before the war, the average monthly export of hogs was about 50,000,000 pounds. In March, 1918, we exported 300,000,000 lbs. and can see our way clear, with the present saving and production, to go forward at this rate for an indefinite period. Before 1917, we were shipping 1,000,000 to 6,000,000 lbs. of beef per month. After the European war began, there was an increase to about 23,000,000 lbs. per month. Now, we are exporting at the rate of 130,000,000 lbs. of beef per month and, with the continuation of conservation of production, there is no reason to anticipate a material reduction in these figures."

Only Safe Procedure.

"The winning of the war depends upon the development of great offensive strength on the part of the U. S. The offensive must include ships, men, supplies and food. With the increase in the size of our army, there is necessary decrease in our productive capacity. Har-vests are bound to vary with seasonal conditions. The only safe procedure for us and for the allies is to provide enormous reserve stocks of staple goods, both here and in Europe, to meet any emergency which may arise. In a later period of the war to have to stop at a critical phase of it in order to put unusual emphasis upon agricultural production, might be fatal to our final success. There must be no let down in the program of conservation until the new harvest. Heartened by our success and by the spirit of devotion and self-sacrifice shown by the American people we must go ahead more than ever convinced of our responsibility to those who fight with us and to those unfortunate peoples who look to us as the one source of the food supply necessary to keep them from destruction."

Hall safe for sale at Weber's.

Social Events

Sunday School Gave Party for Drafted Men.

A party was given by Shiloh Sunday school at the home of Edward Deaton Thursday for Neal Sorrells, Leo Bourne and Earl Carpenter who are to leave with the next Morgan county contingent for Camp Taylor. About 55 guests were present and the time was spent with games and music. During the evening refreshments were served.

Mr. and Mrs. Anton Graef Entertain for Francis Doolin.

Among those who are to go to the colors next week is Francis Doolin who for a long time has been employed by Anton Graef in his cigar factory. Thursday evening Mr. and Mrs. Graef tendered the young gentleman a farewell reception at their home on West College avenue. The evening was pleasantly spent with music and various pastimes and nice refreshments were served. Mr. Graef and Ed. McNamara gave the young man a wrist watch and Miss Bowman gave him a sweater. All the gifts were connected with the cigar factory and know and esteem the young man highly and hope he will have a successful career and return home all right.

Entertained for Men Who Leave for Service

Miss Effie Lukeman and Miss F. Sample entertained a company of friends to the number of sixty at the home of Miss Lukeman Friday evening in honor of Hadden Bell and Ernest Dyer who leave June 28 for Camp Taylor, Ky., to enter the service of Uncle Sam. The evening was pleasantly passed in playing games that had been planned by the hostesses. Prizes were won by Mrs. Albert Wood and Robert Cooper. Dainty refreshments were served and at a late hour the guests departed wishing the young men good luck and a safe return.

Mr. and Mrs. Gull Entertain at Dinner.

Mr. and Mrs. J. H. Gull entertained at six o'clock dinner Friday evening for Mr. and Mrs. Homer G. Bradney. Mr. Bradney expects to enlist and leave with other Morgan county boys for Camp Taylor next Friday.

Best of summer clothing at right prices at Knoles.

SOME FINE LANDS IN ARKANSAS

Dr. Fred S. Gay and Other Pike County People Interested There—Crop Returns Are Large.

A number of Morgan county people have lately become interested in agricultural opportunities in Arkansas. Dr. Fred S. Gay of Rockport, Pike county, is a heavy landowner in that locality and a number of other Pike county people have farming interests there. The two counties lie in the southeastern portion of the state and most of the bottom lands in the Mississippi river valley. The lands, however, are twelve to fifteen miles from the river, with perfect protection from a government maintained levee. Chicot county is all Mississippi river bottom land and according to the government geological survey is made up of the most fertile soils in the state. Some of the verified stories of crop production which come from that locality surprise even Illinois agriculturists who are familiar with the crops that the best lands in this state produce.

Some Big Yields.

The average cotton yield in Chicot county is a bale per acre and at present prices this means a gross return of \$200 per acre. In recent years crop has been in favor in this district of the south and it is easy to produce 60 bushels to the acre. Four tons of red clover and seven tons of alfalfa to the acre are also records made by many average farmers, for clover can be cut three times a year and alfalfa five times. One of the most valuable of the pasture grasses is the ordinary white clover which grows abundantly. Lake Village is the county seat of Chicot county and is situated on Lake Chicot, a splendid fishing resort. The water is clear as one of the northern lakes and bass, crappie and game fish are abundant.

Railroad development in the two counties mentioned has only come in the last fifteen years and so the development of the land has been somewhat delayed. At present unimproved lands sell from \$20 to \$25 per acre and some of the improved farms at \$35 to \$60 per acre. In addition to railroad development there has come improvement thru the state roadway, as Arkansas convicts are continually worked on the state roads and the system of hard roads stretches thru both Ashley and Chicot counties. The building improvements made in the cities and county precincts in these two counties during recent years afford the best testimony of the substantial prosperity.

A brother of Dr. Gay has for a number of years been a resident of Chicot county and his large farm there has made a splendid return. Dr. Gay himself visits the county every few months to look after his tract of land and persons interested in the county can secure additional facts by writing Dr. Fred Gay at Rockport, Pike County, Ill.

ATTENTION, K OF P.

All members of Jacksonville No. 152 and Favorite No. 376, Knights of Pythias, are requested to meet in Castle hall at 10 o'clock sharp Sunday morning to attend memorial services at Central Christian church. All members are urged to make a special effort to attend. Committee.

PLANS FOR LOCOMOTIVE SECURED BY IMGRUND

George Imgrund, superintendent of the C. P. & St. L. shops, who went to Washington, D. C., recently to secure specifications and measurements for an engine to be built at the C. P. & St. L. shops, was successful in his mission according to a telegram received yesterday by Dr. Carl E. Black. Mr. Imgrund as previously noted, went east in order to procure the necessary data for the building of a locomotive of the type used on the North Cross railroad from Meredosia to Jacksonville, the first railroad built in Illinois. As soon as Mr. Imgrund returns the work will be begun at the C. P. & St. L. shops, with the expectation of having the locomotive completed in time for the centennial celebration parade on July 4.

Men's Summer Pajamas and Night Shirts at about price the material would cost, are sold by FRANK BYRNS' Hat Store.

CHECKING AND RENTING SUITS NOW AT NICHOLS PARK BATH HOUSE

We are now supplied with bathing suits for both men and women and a check room with a manager and who will also be a life saver in case of an accident at Nichols Park. All men and boys may check suits and valuables or not as they see fit but all ladies will be required to rent a suit or check their own and their valuables. Suits rented at 25 cents. Clothes and valuables checked for 10c cents. MULENIX & HAMILTON.

Berkshire cooked ham. Douglas Store.

CAPPS TEAM TRIMS SOUTH SIDE MERCHANTS.

The Capps team trimmed the South Side Merchants in the Twilight league game at State hospital grounds Friday evening by a score of 10 to 4. The Merchants started off in fine shape and scored all of their runs in the first inning and then quit. The Capps batters kept plugging until the lead was overcome and victory made sure. The batteries were: Capps, Denny and Fred. Merchants, Antrobis and Jackson.

EXEMPTION BOARD NEWS

The local board of Morgan county yesterday issued an appeal for volunteers to go with Morgan county's quota of 400 to Camp Taylor next Friday. The government's order was to furnish 400 from class 1 and the board does not have this number available. At best there are not more than 375 in this class and in order to meet the government request the board is hoping that there may be volunteers to the number of 25 from deferred classifications, especially from class 4 men.

The board yesterday pointed out that the married man who enters the service is required to make an allotment of \$15 a month from his pay for the support of his wife and the government adds \$15 to this sum. In case the man has a child an additional allotment of \$10 is made, making a total of \$40. If there are two children the allotment for the children is \$17.50, making a total of \$47.50 per month.

Men from the farms are not wanted as volunteers as there are already too many farmers in the county's quota and the board realizes that the taking of farmers at this time constitutes a hardship which would be simply increased if farm workers were to volunteer.

Several Class One men will be examined at the office of the local exemption board this morning for their military fitness to become members of the National Army.

Four registrants will be called for their first examination. They are:

Daniel Dietrick, Concord, William Prewitt, Jacksonville, Russell Long, Arenzville, Raymond L. Gottschall, Franklin.

Men who have undergone one examination and are to be called today for re-examination are:

Carl R. Wilson, Pisgah, Albert T. Rapsilber, Jacksonville, William Lentz, Decatur.

Carl H. Williams, Jacksonville, Floyd J. Heckel, Dwight, Hugh Watson Sargent, Meredosia.

Carl A. Smith, Literberry, Ira E. Carr, Waverly, Clarence E. Ballard, Meredosia.

Two men, both residents of this city who have been called for examination previous to this time, but who failed to appear, have been requested to appear at the office of the board this morning. They are Arthur Ball and George M. Evans. If they fail to report to the board today they will be reported to the adjutant general as delinquents and their cases handled accordingly.

Boy Scouts were active yesterday at the office of the local board. This great organization, for boys is always on hand when the need for service presents itself. Friday two scouts, Frank Imhoff and Charles McCune, were at work at the board office, aiding in rubber stamping various papers and running errands.

Word was received at the office of the board Friday that Dr. P. J. Ewerhardt, a Morgan county registrant, had enlisted in the medical reserve corps, and therefore was not subject to call by draft by the local board. Dr. Ewerhardt is now stationed at Kankakee State Hospital but at the time of registration last year was connected with the Norbury institution here.

The following decisions of the district board were received at the office of the local board yesterday:

Harry E. Goacher, Waverly, placed in Class 4, Div. 4, upon reconsideration by the district board.

Frank J. Ryan, Franklin, placed in Class 2, Div. A.

Coy — Palmer, Franklin, Class 4, Div. C.

Verner D. Wilson, Jacksonville, placed in Class 1, Div. 1 on agricultural claim, Class 4, Div. A, as regards dependency.

Herschel F. Williams, Class 1, Div. 1.

A last and final effort will be made by members of the local exemption board today to influence members of the district board and the adjutant general in the matter of deferring the call for men. If it were possible to hold men engaged in agriculture a few weeks the problems facing the farms today would be greatly simplified as regards the labor situation and the government's interests furthered thereby.

THE LOCAL BOARD OF MORGAN COUNTY YESTERDAY ISSUED AN APPEAL FOR VOLUNTEERS TO GO WITH MORGAN COUNTY'S QUOTA OF 400 TO CAMP TAYLOR NEXT FRIDAY. THE GOVERNMENT'S ORDER WAS TO FURNISH 400 FROM CLASS 1 AND THE BOARD DOES NOT HAVE THIS NUMBER AVAILABLE. AT BEST THERE ARE NOT MORE THAN 375 IN THIS CLASS AND IN ORDER TO MEET THE GOVERNMENT REQUEST THE BOARD IS HOPING THAT THERE MAY BE VOLUNTEERS TO THE NUMBER OF 25 FROM DEFERRED CLASSIFICATIONS, ESPECIALLY FROM CLASS 4 MEN.

TODAY PORK TENDERLOIN WHITE PIG MARKET

UNION SERVICES SUNDAY NIGHT.

Arrangements are now being made for out door union services. The services will be held by the West Side churches each Sunday night during July and August on the lawn of the Congregation church. The members of the committee on Union services are A. A. Todd, E. B. Landis, and F. B. Madden, appointed by the ministerial association, special music, strong gospel sermons, and patriotic messages will characterize these services. All church people and citizens of Jacksonville are invited to attend.

COAT AND SUIT SALE TODAY AT HERMAN'S.

KNIGHTS WILL HOLD MEMORIAL

Sunday morning the members of Jacksonville Lodge No. 152 of the Knights of Pythias will be delivered by Myron L. Pontius. The service is an annual of the graves of all deceased members of both the service have a chance. The committee is working to the end that the service will be larger before.

UNPLEASANT READING
FOR EMPEROR WILLIAM

German Church Review Deplores Lack of Discipline and Religious Feeling Among People.

Amsterdam, June 21.—The German quarterly church review the first section of which is published by the Protestant Kreuz Zeitung of Berlin, seems likely to make unpleasant reading for Emperor William, in view of his frequent utterances in praise of the piety and high morality of the German people.

The review declares that the task of the church has become immeasurably harder, "because of the utter lack of discipline and religious feeling among the people. Our youth, with their easily gotten money in their pockets, swollen with sinful pride," it continues, "are entirely contemptuous of restraint and continence. Confusion reigns in numberless of the administrative government departments as to what is right and wrong. The highest law seems to be, 'profit and amuse.'"

Lamenting the laxity of present day German morals the review incidentally but gravely condemns the proposal emanating from Cologne to legalize bigamy, which proposition the document takes quite seriously. This attitude is interesting, because it is recalled that the proposal at the time it was made was represented by eminent Germans as a mere freak unworthy of serious notice.

The review which throughout is couched in the most pessimistic tone, expresses the fear of irreparable damage to the existing evangelical state church unless it succeeds in overcoming the indifference of the people to religion.

DR. MOTT ADDRESSES
Y. M. C. A. WORKERS

CHICAGO, Ill., June 21.—A few things not generally known here as to the gigantic way in which the United States is getting men to France were imparted today by Dr. John R. Mott at a meeting of 500 middlewestern leaders in Y. M. C. A. work.

Dr. Mott who has made five tours of the front, said that space on transports is doubly utilized by sleeping the men in two shifts. One shift is entitled to a bunk for twelve hours, and the other shift takes the remaining twelve, he said. In this way some of the larger ships carry thirteen or fourteen thousand men per trip.

Dr. Mott and George W. Perkins were in Chicago today on the first stop in their tour to arouse interest in a forthcoming drive for a new Y. M. C. A. fund of more than \$100,000,000.

LATONIA DERBY
TO BE RUN TODAY

LATONIA, Ky., June 21.—Seven three year olds are carded to start in the thirty sixth running of the Latonia derby tomorrow. According to the announcement tonight the horses that are almost certain starters, their weights and owners are:

Johren, 127 H. P. Whitney, Exterminator, 124; W. S. Kilmer, Free Cutter, 122; G. J. Long, American Eagle, 122; T. C. McDowell, Aurum, 123; J. Livingstone, Hollinger, 122; D. Raymond, Herald, 122; H. H. Hewitt, From all indications tonight Johren, winner of the Suburban and Belmont Handicaps will be favorite.

TENNIS AT NICHOLS PARK.

The tennis court is now in shape at Nichols park and all who enjoy the game may take advantage of it. The court is well situated and affords much pleasure for lovers of the game.

OPENLY ATTACK
EMPEROR'S SPEECH

GENEVA, June 21.—Several German newspapers openly attack the speech made by Emperor William at German great headquarters on the occasion of his anniversary.

The Post of Munich says that the feast could have been celebrated by a measure of clemency and humanity instead of with a speech of war-like tenor against England without containing words of thanks to his own people. The paper concludes that the Anglo-Saxon races are powerful enough to accept the emperor's challenge.

AMERICAN AMBULANCES

Italian Headquarters in Northern Italy, Thursday, June 20. —By the Associated Press.—Commenting on the Plave battle and the work along the firing lines of ambulances inscribed "The Gift of American People," Arnaldo Fraccorelli, correspondent of the Corriere Della Sera, of Milan, says: "One of the most admirable episodes I witnessed was the courage of these young Americans doing their duty amid the intense shell fire. This is indeed authentic living poetry."

AUSTRIAN PLAN PLAIN

Rome, June 21.—"The Austrian plan becomes plainer and plainer," says a semi-official note issued today. "The plan is to obtain no matter at what price, command of the Montello, whence they can hurl forward the divisions accumulated on the left bank of the Piave. Along the Montello-Susegana railroad the battle raged all of yesterday afternoon and night. A short stretch of the track which the Austrians captured was covered with the bodies of their dead."

WINTER WHEAT

Topeka, Kan., June 21.—A winter wheat crop of 97,554,376 bushels from 6,654,686 acres was forecast for Kansas today by the state board of agriculture based on reports received as to condition on June 15. The average acre yield is estimated at 14.66 bushels making the crop the third largest in the history of the state.

As a result of recent extreme heat and lack of rain the prospective yield has suffered an average of from one to two bushels per acre.

BREAD RATION

Paris, June 21.—A despatch from Geneva to the Temps says that the Austrian government has decided to put Vienna and other large cities on half the present bread ration in order to ameliorate the conditions in Galicia and Bohemia. These conditions are so bad the Temps quotes the Vienna railroad and other strikes, can only be averted by such a measure. The Vienna newspaper adds that the city too badly off, are still in better condition than the country, where there is virtually no bread.

RECEIVE CITATION
WITH THE AMERICAN ARMY

IN FRANCE, June 21.—By the Associated Press.—American troops forming the Rainbow Division on the completion of a hundred days' consecutive service on the front line in Lorraine today received a citation by the French general testifying to the good work of the division.

ASKS CAR FARE RAISE

Springfield, Ill., June 21.—A seven cent street car fare is petitioned of the public utilities commission by the East St. Louis Railway company in an application today.

UNCONDITIONALLY RELEASED

Frank Fahey, pitcher for the Philadelphia American league team was given his unconditional release by Manager Connie Mack today.

COMMITTEE FEARS
ABSOLUTE PROHIBITION

Believes It Might Interfere With Prosecution of War Thru Affect on Labor.

Washington, June 21.—Feeling that absolute prohibition might so effect labor of the country as to interfere with prosecution of the war the senate agricultural committee today decided to re-open Tuesday hearings on the Jones prohibition amendment to the \$11,000,000 emergency agricultural appropriation bill in order to investigate more fully that phase of the question. The committee called on Secretary Daniels, Postmaster General Burleson, Chairman Hurley and Bainbridge Clibbey of the shipping board, Director-General Schwab of the emergency fleet corporation and heads of a number of industrial plants, employing large numbers of men to appear as witnesses.

Decision to hold further hearings resulted from testimony this week before the committee by Mr. Colby who declared taking beer from ship yard employees would lessen their efficiency and reduce tonnage output about 25 per cent.

When the committee met today Senator Kenyon of Iowa, and other supporters of prohibition declared opposition to reporting favorably the Jones Amendment if it would interfere with successful prosecution of the war and said they desired to ascertain if the opinion expressed by Mr. Colby indicated the shipping board's attitude. After three hours discussion the committee agreed to resume hearing.

Altho President Wilson so far has refrained from taking any part directly in the matter it was learned tonight that the white house is showing an active interest in the committee's deliberations and some senators believe that the opposition of some of the members of the shipping board to the amendment reflects the white house view.

RAILWAY DEFICIT

Chicago, June 21.—Railways of the United States after four months of federal operation show a deficit of \$250,000,000 according to computation announced today by the bureau of railway news and statistics of Chicago. These figures were compiled from monthly returns to the interstate commerce commission and are said to reveal the net operating revenue for the first third of 1917 was less than \$50,000,000 against a rental due of more than \$300,000,000.

The net operating income of the roads for January, February, March and April, 1918, after deducting taxes was given as \$157,075,929, a decrease of \$123,204,192 when compared with corresponding months of 1917. These figures were said to cover an average of 261,754 miles operated against an average of only 252,951 of Class 1, taken over by the government.

DEMAND INTERMENT

Springfield, Ill., June 21.—Declaring that United States Senator L. Y. Sherman, "by his tactics of stirring up class hatred is rendering aid and comfort to the enemy," Springfield sub-district miners in convention here today adopted a resolution demanding that Sherman be "interred during the life of the war."

The resolution was introduced by members of U. M. W. A. Local of Lincoln, Ill., at a meeting of fifty delegates, representing a membership of 12,000 coal miners of this section of the state.

BEGIN NEW SHIPS

San Francisco, Cal., June 21.—Construction of the new ten way ship yards of the Union Iron Works division of the Bethlehem Shipbuilding corporation in Alameda, Cal., was begun today immediately upon authorization of the project by the emergency fleet corporation, it was announced by J. J. Tinn, general manager of the works. The new yards will cost between \$15,000,000 and \$20,000,000 Tinn said, and will furnish employment to 12,000 men.

TO TAKE EQUAL PART

Chicago, June 21.—Y. M. C. A. delegates from fourteen western states voted today to permit the Y. W. C. A. to take an equal part in the nation's behind the lines war work. As a result the Y. M. C. A. campaign to raise \$12,000,000 will be devoted to the purposes of the two organizations. John D. Rockefeller, Jr., was one of the principal speakers at the meeting in favor of the plan.

AVIATOR MISSING.

Italian Headquarters in Northern Italy, June 21.—By The Associated Press.—Signor Baracca, who was considered Italy's premier aviator is missing after a battle with enemy aeroplanes. His machine fell inside the hostile lines after it had caught fire during the fight. On the day that he was brought down he had taken the air five times to engage enemy machines in combat.

NO POTATOES.

Amsterdam, June 21.—The Frankfurter Zeitung's correspondent at Munich telegraphs that Bavaria is unable to supply Austria with potatoes. Frost has retarded the new crop and the old stocks must be used sparingly.

BOY DROWNS.

Kankakee, Ill., June 21.—Alex Fortin, 14 years old, son of Gene Fortin of this city was drowned in the Kankakee river late this afternoon when the leaky boat in which he was riding sank before the dam. Alfred and Lester Girard were rescued.

AUSTRIAN LOSSES.

Paris, June 21.—The Austrian losses in their offensive on the Italian front exceed 120,000 men, according to a despatch to La Liberte from Rome.

WITH THE COLORS

Charles De Silva is in receipt of the following letter from Flying Cadet Harold McGinnis. The young man is making good in the aviation section and his letter should prove of general interest.

Dear Charlie: A cold old rain is falling here and while lying all sprawled out on my bunk I just happened to think of you and wished that I could have a couple of your good old hamburgers to put under my belt. Haven't tasted a hamburger since my enlistment and that has been a long, long time.

You ought to take a trip down here, Charlie, and see the kind of work we are doing, for I am sure it would be an inspiration to you, just to see the kind of preparation along the lines of aviation that is going on here each day. There are nearly two hundred student aviators here and flying in all its stages is done each day, from the first step in dual control to the acrobatic tunts which is the final stage of the course.

I just finished my advanced solo and primary acrobatic stage and am now flying on cross country work. Two weeks of this kind of flying and one week's formation and acrobatic will finish me up and my commission should be forthcoming July 13th—not very far off, eh?

Flying sure is the life, Charlie. When a man is in the air no son of a gun can tell him what to do, for he is his own boss. When a flyer reaches the advanced stage he has a chance to do quite a bit of joy riding and you can bet that I have some dandy old jazz rides. Will soon be home to tell you all about them. If you are ever down towards St. Louis be sure to come over to this field and I promise that you will enjoy the trip.

With best regards, Mac. Cadet Pilot Harold A. McGinnis, Scott Field, Belleville, Ill.

WINCHESTER

Winchester, June 21.—Mrs. John Grady and daughter, Miss Marie of Merritt, and Mr. and Mrs. Warren Newell and son of Versailles, have returned to their homes after a visit at the home of Mr. and Mrs. Bert Carey.

Miss Margaret Brengle left this evening for Chicago where she will visit relatives and friends.

Pioneer Lodge L. O. E. gave John B. Penton the third degree of Odd Fellowship Friday evening. He expects to leave with other Scott county boys for Camp Taylor next Tuesday. He will be the second son of Mr. and Mrs. William Penton to enter the nation's service, and the fifth member of Pioneer Lodge to enter the ranks.

Mrs. Ray Nelson is visiting relatives in Canton this week. Mrs. Len Taylor and children returned Friday to their home in St. Louis. Her parents, Mr. and Mrs. George Stuart accompanied them home in their car.

Mrs. Warren Coultas and mother, Mrs. Ella Padon left Friday for Coffeyville, Kans., to visit relatives and friends.

Quite a number attended the Red Cross social held at Rutledge Chapel Friday night.

The ladies of the Methodist church will serve dinner for the selected men who are to leave here next Tuesday for Camp Taylor. Dinner will be served at the church and will start at 11 o'clock. On account of the large number of men to leave it is anticipated there will be a large crowd of relatives and friends present to bid them goodspeed.

Mr. and Mrs. Joseph Geiger and daughter, Miss Mary of Manchester returned home Friday after a short visit with Thomas Kirkman and family.

Miss Maude Coffman arrived Thursday from Galesburg to visit Miss Vivian Brengle.

Mr. and Mrs. Merton Abbott of Naples visited relatives here yesterday.

GUESTS RETURN HOME

Chester Pocock of Nokomis is guest at the home of his uncle, J. F. Kellogg on East State street. Mr. Pocock expects to leave soon for camp. Miss Pearl Pray of Pana has also been visiting at the Kellogg home. Yesterday Mr. Pocock and Miss Pray, accompanied by Mrs. J. F. Kellogg and Misses Ruth and Helen Rawlings, returned to Nokomis. Mr. Kellogg expects to remain about two weeks.

NAVAL BRANCH
OF AIR SERVICE

London, June 21.—The admiralty today issued the following official communication dealing with aviation by the naval branch of the air service. During the period from June 17 to June 18, naval aviators during the night and day bombed the Bruges docks, the Ostend docks, the Zeebrugge, St. Denis-Western and Marlaeater airdromes, La Flegueuse works, the Thorout railway junction and railway sidings at St. Pierre Capelle. Approximately sixteen tons of bombs were dropped with good results.

Attacks were made with bombs and small arms on enemy shipping. Two direct hits were observed, one on an enemy torpedo boat destroyer. Other bombs fell close. Enemy aircraft attacked two of our bombing formations and one hostile machine was driven down. All our machines returned except one which was forced to descend in Holland owing to damage to its engines sustained in an engagement with an enemy aircraft. Its crew landed safe.

Despite unfavorable conditions our anti-submarine escort and hostile aircraft patrols have been maintained by airplanes, seaplanes and ships in home waters during the same period. Enemy mines have been located and destroyed, hostile submarines sighted and attacked and allied neutral shipping escorted.

BUY THRIFT STAMPS

MURRAYVILLE BUYS
LOTS OF WAR STAMPS

Citizens Subscribe \$19,500 Worth of Stamps At Meeting Friday Evening—Addresses by M. L. Pontius, Father Flynn and T. W. Callihan—Excellent Musical Program.

Murrayville, June 21.—Murrayville proved her loyalty and patriotism Friday evening when her citizens subscribed for War Savings Stamps to the amount of \$19,500.

The meeting which had been planned by the committee on War Savings and Thrift Stamps was held in the public park and was largely attended.

Two strong addresses were given by Rev. Myron L. Pontius of Jacksonville, and the Rev. Father Flynn of St. Bartholomew church, of Murrayville. Father Formaz of Jacksonville was to have delivered an address but he did not return from Chicago in time and Father Flynn took his place and made a most favorable impression upon the gathering.

Musical numbers were interspersed in the program given by a ladies' quartet composed of Mrs. Short, Miss Florea Short, Mildred Wright and Stella Cunningham. The entire audience sang patriotic songs under the leadership of Rev. W. E. Collins of Jacksonville which were of an inspiring nature.

Prof. T. W. Callihan, chairman of the Centennial celebration committee, was also in attendance and explained to the audience what it is purposed to do at the celebration to be held in Jacksonville July 4. That Murrayville people are interested in the centennial was indicated by the close attention they gave Mr. Callihan.

Those who made the trip from Jacksonville were: George Riggs, Rev. M. L. Pontius, Rev. W. E. Collins, J. H. Dial, R. E. Thompson and T. W. Callihan.

TESTAMENTS FOR
SOLDIERS

We have a fine line, including the khaki. Lane's Book Store.

BIRTH RECORD

Cards have been received by a number of Jacksonville people announcing the arrival of a son at the home of Mr. and Mrs. George Drury Lenington in New York City. The new baby's father is a son of Rev. and Mrs. George C. Lenington.

EAST LIBERTY SCHOOL
MAKES FINE RECORD

At a War Savings and Thrift Stamp meeting held at East Liberty school Friday evening, a fine record was made when War Savings Stamps to the amount of \$12,000 were subscribed. Addresses were made by John J. Reeve and Rev. W. E. Keenan of Franklin. Thomas Harber, assistant postmaster, conducted the sale of War Savings Stamps and the result was most gratifying and one of which East Liberty School District may well be proud.

PERSONALS

Horace Simpson traveled from Prentice to the city yesterday. Mr. and Mrs. L. O. Vaughn will leave tonight for Old Mission, Mich. They expect to remain at their farm home there until September.

Mrs. J. C. Fairbank has returned from Conneaut, Ohio, where she spent several weeks at the home of Dr. and Mrs. R. O. Post. Their many Jacksonville friends will be glad to know that they are well and now pleasantly located.

Mrs. A. F. Kitchner left last night for Chicago for a visit with her daughter, Mrs. L. L. Mullins. Later Mrs. Kitchner will go to Hoopes-ton, where she will be a guest at the home of her daughter, Mrs. W. C. Welty.

Miss Margaret Beam, who makes her home with Mrs. Edward Brown will return to the city today after a visit with friends in Decatur.

Mr. and Mrs. Walter Hines and daughter of Alexander are in the city to visit Mrs. Hines' father, who is a patient at Our Savior's hospital.

Mrs. C. A. Korsmeyer of Arenzville was a traveler to the city yesterday.

DANCE AT ALEXANDER.

A dance was given at Alexander Friday evening for the benefit of the Woman's division National council of Danvers. The attendance was the largest in the history of the village, 108 tickets being sold and there being in addition 12 young men who are in the next quota, making 120 couples in all. There were a number in attendance from Jacksonville. Music was furnished by the Carroll-Large orchestra and the affair proved a great success.

WILL GIVE LECTURE TODAY.

Miss Percival of the University of Illinois who is in Morgan county by the invitation of the woman's conservation committee, will speak at Trinity chapel this afternoon at 2 o'clock. Miss Percival will talk about war breads and will give a demonstration of cheese making.

CHILDREN'S DAY
AT SALEM CHURCH

Children's day will be observed at Salem church Sunday afternoon at 3 o'clock. An interesting program has been prepared and it is hoped that all members of the church and friends will be present.

ASBURY CHURCH SERVICE.

Rev. W. R. Leslie, pastor of Centenary church will preach at Asbury at 3:30 Sunday afternoon. Sunday school at 2:30 o'clock.

Large auto load of ladies of the Hainsfurther families and friends came up to the city from Winchester yesterday. Chaffeurs and all were ladies and they made a decidedly imposing array.

ROSS ABELL TRIES
TO TAKE HIS LIFE?

Report Current on Streets Thursday Night and Friday.

A report was current on the streets Thursday evening and Friday that Ross Abell of 503 South Fayette street had attempted to suicide by taking carbolic acid.

Friday evening a close friend of Abell told a Journal reporter that Abell had attempted to take his life by the carbolic acid route. He had been rather sick for a time but was convalescing at his home, 503 South Fayette street. This friend of Abell's said that his attempted suicide was on the bridge crossing the Brook in South Fayette tract. Another report was that he took the poison while near the intersection of South East and Franklin streets and that Abell was taken into a nearby residence.

Abell is one of the men selected to go in the next Morgan county quota to Camp Taylor. It is said that he brooded over this. It also is said that he had quarreled with a young woman with whom he has been keeping company. Whatever the case it seems to be a dark mystery and may prove as difficult of solving as was the identity of the man who struck Billy Patterson or the man who stole Charlie Ross.

WITH THE SICK

Ernest Green, employed at the Avers National bank, has been ill at his home on West State street for a number of days.

The son of Mr. and Mrs. Oliver H. Milburn who recently underwent a serious operation in Springfield, has been brought to the home of his parents on South Main street. The trip was made by automobile in a very satisfactory way and the boy is now improving steadily.

Mrs. Wayne Wright who has been a patient at Passavant hospital for a number of days expected to return to her home on Finley street today.

ATTENTION, K OF P.

All members of Jacksonville No. 152 and Favorite No. 376, Knights of Pythias, are requested to meet in Castle hall at 10 o'clock sharp Sunday morning to attend memorial services at Central Christian church. All members are urged to make a special effort to attend. Committee.

Mrs. M. M. DeWitt of Beardstown was a visitor with city friends yesterday.

"Old Things Have Passed
Away, All Things Have
Become New"

Conditions have changed and the progressive retail dealer is adjusting his business so that it will accord with the new order of things.

It is practically impossible to secure certain drugs, chemicals and other things which form a part of the druggists's stock. The same is true of many lines of imported toilet goods.

But we are keeping our business up to the highest possible standard.

Quality is a hobby with us and our prices are as reasonable as may be had anywhere under the prevailing market conditions.

WAGE EARNERS TO BECOME WAR SAVERS

The other day some one undertook to extend sympathy to a dealer in luxuries in Chicago. "Your business," said the consoler, "must be shot all to pieces by the war." "Quite the contrary," said the merchant, "we were doing the biggest business in our history, but we are selling to an entirely different class of customers. Our old customers apparently cannot afford to buy."

The capitalists are being forced to save by Federal tax collectors. The wage earner, with an income doubled, or even quadrupled, has the money to buy things he has always wanted. So have his wife and daughters.

And there is no law that can compel them to save! The vast sums derived from Liberty Loans and Federal taxes are being spent largely in wages. The wage earner has learned how to go without things he has not had the money to buy. He has yet to learn how to save when he has the money.

He is in danger of becoming a spendthrift. The War Savings Campaign is the best means at hand to help the wage earner to help transform his current income into permanent funds. Every group of wage earners ought to be a group of war savers. They are ready

to save provided only the matter is properly brought to their attention. Already there are in Illinois tens of thousands of wage earners who have joined War Savings Societies.

On June 28th, particular attention should be given to these prosperous working men. Show them that they help themselves by helping the Government! Every factory should be canvassed and become the home of War Savings Societies. The canvasser for War Savings pledges is not asking for favors; he is representing the President of the United States and the Secretary of the Treasury. A man who refuses to make any pledge whatsoever, is not doing his part as a loyal citizen.

The wage earner, who is being prospered by the war, should transform a part of his prosperity into support of the Government and protection for his own future. June 28th is the day to drive this lesson home. Be sure to report at your school house that day and take part in this man's job.

JUST RECEIVED

Two lots of military wrist watches at Russell & Thompson's.

Mrs. Paul Breckon of the region of Ceres was among the people coming to the city yesterday.

A VISITOR FROM OKLAHOMA

W. H. Thompson Tells an Interesting Story of His Far Away Home.

It often happens that a man moves away from this part of the country to his sorrow, finding anything but the success he was seeking, but a man is here now from Blackwell, Oklahoma, who tells a different story. This man is W. H. Thompson who is here visiting his brother, Robert G. Thompson and the Crum families, relatives of his wife. Mr. Thompson went west to the vicinity of Winfield, Kansas, 26 years ago and remained there thirteen years. There he educated his two sons especially with the business of banking in view.

When the strip was opened he sought his fortune in Oklahoma and says he has no reason to complain of his choice. One of his sons became a banker in an adjoining county and one in Blackwell and both did well but a few years ago the first named had an attack of Texas fever and migrated to the Lone Star state and was wise enough to select a part southwest of Houston and not many miles from the gulf where they have rain and don't have to see their cattle starve and die for lack of water. He has 600 acres of his own and rents 5000 more and carries on a large business. This spring he has two hundred cows most of which have or will calve; two hundred two year olds and other stock. He farms extensively and has a large retinue of colored people who raise lots of cotton he pays more attention to grain and rice.

Of the latter he had last year 1000 acres so situated near a creek that he was able to flood the field from the stream and it proved a very profitable crop. The other son became allured with the oil business as one gusher after another was discovered so he too has given up the bank and is devoting all his attention to the oil and is pleased with the result.

Mr. Thompson says in his part of the country farming pays very well. Their land is hardly as rich as ours but produces very well. They raise corn, wheat and oats but alfalfa is their leading crop as the conditions are generally favorable. It produces three to five cuttings a year, at least an average of four with a ton to the acre each cutting. Sometimes the first cutting gets a bit of rain but generally it is saved all right and last year sold for \$24 a ton. Wheat yields about twenty bushels to the acre as a rule the last year it went away beyond that in many cases; thirty, forty and one man Mr. Thompson knew had 47 bushels to the acre.

For harvesting Mr. Thompson says they use the header almost entirely as the wheat nearly always stands up straight and he says he is satisfied that it is as economical as the binder. It takes six horses on the machine and three wagons with two horses each and a stacker. A force of this kind will cut and stack forty acres a day which is pretty good work.

Mr. and Mrs. Thompson have a great many relatives in this and Cass counties and he will be busy visiting for some time.

ATTENTION, K OF P.

LUTHERANS ENJOYED ANNUAL PICNIC

Varied Program Interested Both Old and Young—Rev. Mr. Kuppler Made Patriotic Address.

A great crowd of people attended the Salem Lutheran picnic given at Maple Grove school Friday. The event was postponed from Thursday on account of the unfavorable weather. Friday the weather conditions were perfect and all the arrangements were of a kind to increase the pleasure and enjoyment of those who attended. During the day members of the Ladies Aid society served lunch and the Luther Walthers circle had a stand for the sale of ice cream and other refreshments. The ladies guild had a grab bag as one attraction and a fish pond furnished amusement for both old and young. In addition to the literary and musical program there were various athletic contests and the program as a whole was so varied that there was something to interest everyone. The principal number on the program was the address by Rev. J. G. Kuppler who took "Lutheran Loyalty" as his theme. In his address the minister commented upon the fact that a large percentage of the Lutheran schools of this country have met quite a problem in shifting from the German to the English language in instruction work. This was done here at Salem school several years ago and the entire religious instruction of the children is given in English.

In his statement with reference to the loyalty of the church Rev. Mr. Kuppler said:

"With this school year our Salem Lutheran school has rounded out fourteen years as an English Lutheran parish school. The class graduating from the eighth grade is the largest for a number of years, namely, six. The problem confronting a large percentage of the Lutheran schools of this country, in shifting from German to English has been met by our school years ago. The entire religious instructions of our children is given in the language of our country. We for that reason are more fortunate, especially in these critical times when the charge of disloyalty is made about almost everything that smacks a little after German."

Disloyalty Charge Unjust. "The charge of disloyalty which is sometimes made against the Lutheran church is quite unjust and unreserved. For the most part we know it is based on misunderstanding of her doctrines and an ignorance of the history and practice of our church. To some extent it may also spring from prejudice and even malice. Our church has to some extent been slow to lift its voice in its own defense because of the deep grief which this accusation has brought us. We can no longer brush these accusations aside with a superior wave of the hand, but it is our duty as a church to refute unjust criticism and profess unreserved loyalty."

"But what is it to which the Lutheran church is loyal? There is a difference between law and opinion, between that which has been crystallized into the form of government and that which is as yet in a state of solution in the form of public opinion. Loyalty to our government does not require of any one to agree with the opinions of those around him, no matter how high in authority they may be. Our loyalty is to the American idea of liberty under law as embodied in the U. S. government and administration."

State and Church Separate. "In our country state and church are strictly separate. Thus it should be, according to the word of Christ: Render unto Caesar the things that are Caesar's, and unto God the things that are God's. The state has jurisdiction over our bodies and all things pertaining to this life; the church is to minister to our souls and the thing pertaining to future life. It is the duty of the church to educate and train in fearless body of Christian citizens who conceive their political duties as a high service to God and man. Such citizens are a powerful agency for the betterment of civil government and the promotion of righteousness. The true church is the body of Christ whose life within her makes her the best support the state can have."

"Respecting loyalty we must remember that there is a difference between loyalty and idolatry. Loyalty in our country means respect and fidelity to law and not the idolatrous devotion to the rulers of a country which is known as 'jingo patriotism.' All men are normally patriots. Scoundrels are quite as good patriots as decent people, and far more vociferous ones. The quality, therefore, is not possessed by good people only. Some very bad people possess it. Loyalty does not consist in damping the enemy, his language and literature, his grandparents and remotest relatives. That makes a big noise, but it doesn't win battles. And today loyalty must win battles instead of indulging in windy vituperations."

"Bearing in mind this distinction between true loyalty and jingo patriotism let no one look to the Lutheran church or any of its branches for heading commitment of the clasp of that cheap batant, tar and feathering, mob raising 'patriotism' so rampant today. Raising questions and casting suspicion."

The program carried out included the following numbers: Program of Exercises by School. Address of welcome—Camille Donovan.

Song, "Star Spangled Banner"—School. Recitation—Louise Stier, Freda Lakamp. Song, "America"—School. Dialogue, "A Banner Class"—Verna Middendorf, Hazel Noudette, Dorothy Willner, Vilma Buescher, Theodore Schulz, Clarence Ingram. Drill, "Sow, Sew, So"—School. Recitation, "When the Flag Goes By"—Walter Gruber, Arthur Middendorf, Clyde Noudette. Song, "Hail to Our Flag"—School.

Dialogue, "Going to Church"—Freda Lakamp, Louise Stier, Alice Horrer, Walter Kuppler, Clarence Ingram.

Recitations: "A Star for Me." Sarah Holt; "A Bear Meal" Dorothy Willner.

Song, "Bye O Baby"—Lorette Buescher.

Exercise, "Not You of Course"—Harold Willner, Edwin Gruber, Elmer Middendorf.

Drill, "Old Glory"—School.

Recitation, "Yankees or Red Coats?"—Alice Horrer.

Song, "Musical Imitations"—School.

Recitation, "When June Days Call"—Mary Holt.

Song, "Keep the Home Fires Burning."

Address by the Rev. J. G. Kuppler on "Lutheran Loyalty."

Presentation of service flag.

The Athletic Program.

The athletic contests were arranged separately for boys, girls, women and men and then all participated in a guessing contest. For the girls according to their ages there were foot races, egg race, time race, contest in ball throwing and another in hitting a tin can while blindfolded. The boys enjoyed foot races, a potato race, three legged sack race, tug of war, cracker eating and whistling contests. Then the women vied with each other in ability to drive nails and saw boards. Men joined in the smoking contest and then in stepping off 50 feet of space. In the guessing contest the company was asked to hazard a guess on the number of pennies in a jar and also the number of kernels of corn a hungry rooster will eat. William Gruber made the successful guess of 275, which was within two of the number that the rooster ate. Later the fowl was auctioned off for the benefit of the Red Cross and brought the goodly sum of \$14.

Prizes Awarded. Prizes in the athletic contests were won by the following:

Walter Kuppler, running race. Hazel Naudette, time race. Carl Ehler, running race. Sarah Holt, running race. Camille Donovan, guessing contest.

After the Red Cross rooster was sold it was turned loose and given to the one who caught it. Clyde Naudette made the capture.

Cakes raffled, made by Mrs. Marie Dwyer and Mrs. Fred Moeller, brought \$3.50 each.

The grab bag held by the ladies of the Lutheran Guild netted \$21. The efforts of the ladies aid in serving lunch and coffee realized \$35.

JUST RECEIVED
Two lots of military wrist watches at Russell & Thompson's.

**MR. CALLIHAN TOLD
ABOUT CENTENNIAL**

Plans For Fourth of July Explained Informally Before Rotary Club.

At a meeting of the Rotary club at the Pacific hotel yesterday noon President H. M. Capps asked T. W. Callihan to make a general statement with reference to the plans for centennial observance. Mr. Callihan in a very interesting way told of the purpose of the celebration which is to be held July 4 and indicated that the people all over the country are co-operating in a very active way. Each precinct in the county has a large number of men now in the army service and that number will be still larger after the next Morgan county contingent goes to training camp.

The general program as outlined has much to do with the present war and this fact accounts in some measure for the general interest that the people are showing. Mr. Callihan referred to various facts in the history of this county which very properly have place in the state centennial observance. Mr. Callihan made another reference to the building of an engine by employees at the C. P. & St. L. shops. A hundred men have agreed to work every time and on Sunday from now until the Fourth in order to complete the building of the engine for which Mr. Ingram is now in the east securing specifications.

**DR. STACY TO ENTER
ARMY MEDICAL SERVICE**

As already indicated Dr. G. H. Stacy has been accepted for the medical reserve corps in accordance with his recent application. Yesterday Dr. Stacy wired in his acceptance of a commission as first lieutenant. He will now be subject to call on 15 days' time and because of the known shortage of medical men in the army he will be likely to enter the service at an early date. The quota of physicians allotted to Morgan county has not yet been made but it is understood that several of the younger physicians and surgeons of the county are expecting to join the service before many weeks elapse.

Demonstration of war breads and cottage cheese used in cooking this afternoon at 2 o'clock at Trinity house.

ATTENDED CONFERENCE.

G. B. Kendall, county advisor, will return today from Champaign where he has been for the past two days attending a conference of the county advisors of Illinois. Various questions relating to farm management were discussed, as were matters which the department of agriculture is calling to special attention.

BLUFFS COUPLE IN DOUBLE WEDDING

Were United in Marriage in Jacksonville by Rev. M. L. Pontius.

Bluffs, June 21.—Fifteen of the young lady friends of Miss Ethel McMurray gathered at her home Thursday evening and bestowed upon her a shower of china and cut glass as her wedding day was near at hand, but when they arrived Miss Ethel and sweetheart, Floyd Hierman had gone to Chapin where they were joined by his cousin, Aldo Hierman of Arenzville and sweetheart, Miss Mary Owings of Chapin and they journeyed to Jacksonville where the two couples were united in marriage by Rev. M. L. Pontius of that city. Immediately after the ceremony which occurred at 9 o'clock the bridal couples returned to the home of Mrs. Floyd Hierman's parents, Mr. and Mrs. Fred McMurray where the party of young friends awaited their coming. The girls were surprised but they soon rallied from the shock and proceeded to spend the late hours in merriment and mirth after which a dainty one course luncheon was served by

the ladies of the shower party.

Mrs. Floyd Hierman is the accomplished daughter of Mr. and Mrs. Fred McMurray of this city and a graduate of the Bluffs High school class of 1918. She is popular among the younger set and has spent the greater part of her young life in this place where she is a general favorite. She has studied quite extensively both piano and violin music and gives promise of a bright future in musical circle.

Young Hierman is the elder son of Mr. and Mrs. George Hierman, prominent farmers near town and is a graduate of the Bluffs high school of 1917 and is just 21 years of age, subject to the draft since June 5th. Until called to the colors he will reside on the farm where he is assisting his father in farming.

Aldo Hierman is a prominent farmer near Arenzville and expects to leave to join the colors the 25th. His bride is a popular and prominent young lady of Chapin. She will reside with her parents for the present.

IN MEMORIAM

In memory of Our Pastor Rev. J. Latham who passed from this earth, April 9, 1918. "We shall meet, at we shall miss him, there will be one vacant chair. We shall linger to caress him while he breathe our evening prayer; when a year ago we gathered joy was in his mild brown eye, but now the Golden chord is broken and his face no more we see.

By our friends sad and lonely often will the bosom swell a remembrance of the sermon preached by our pastor that we loved so well. He strove to preach the truth, thru the thick east of the light; to uphold the church's honor in the strength of manhood's might.

True they tell us wreaths of glory, that evermore will deck his brow, But this soothes the anguish only sweeping o'er our heartstrings now. Our Dear Loved One sleeps in a green and narrow bed, that the dirges from the pine and cypress mingle with the tears we shed.

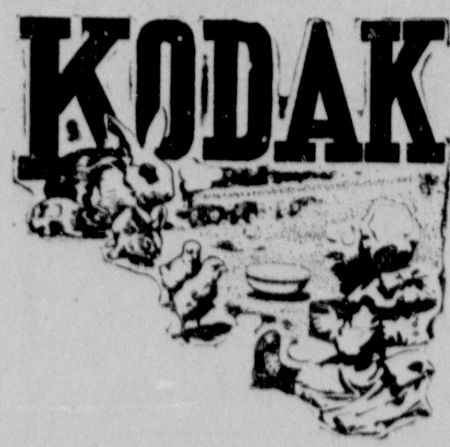

A Friend,
Woodson, Ill.

HERBERT MCCONNELL BUYS OAKLAND 6

Herbert McConnell of Manchester hunted around for the best bargain in a new automobile and decided he had found it in an Oakland 6 which he bought of the J. F. Claus Motor Co.

FROM COUNTY AGENT'S OFFICE

The following letter was recently sent by G. B. Kendall, county agent to members of the Morgan County Farmers' club:

Canning Demonstration: The domestic science department of the University of Illinois has agreed to give a limited number of canning demonstrations by the cold pack methods in the various communities of Morgan county.

When the times and places are arranged, I hope that you will use every effort to get a crowd out that will justify the experiment.

These demonstrations are free to all.

Farm Visits: Altho I am expecting to visit the farm of every member of the club at some time during the year, I prefer that you set the time, and let me know along what lines help is needed.

A two cent stamp on the post card mailed out last week will be a means of letting me know your wishes.

Limestone: The C. and A. have made us a price at their quarry at Pearl, Ill., of 50 cents per ton in carload lots of 50 tons.

Altho these screenings are not as good as the crushed limestone they are far cheaper, and ought to be well worth the money. The advice is to order early.

Rock Phosphate: The best price obtainable so far is \$8.75 per ton in carload lots of not less than 50 tons delivered at Jacksonville, Ill.

This is guaranteed 14 per cent phosphoric acid, the equivalent of 32 per cent phosphate rock, and 70 per cent bone phosphate lime.

The advice here is also to order early as freight shipments are slow.

Alfalfa: The best fields of alfalfa in Morgan county have been cleanly cultivated until the middle of August, treated with from 2 to 4 tons of ground limestone.

Back into itself for about five minutes until it presents the appearance of cream and no longer separates on a standing. This is the undiluted solution. For 10 per cent solution add 17 gallons of soft water to the three gallons.

Chinch Bugs: Altho I have not seen any chinch bugs, be on the lookout for them in small grain. If they are in the small grain, prepare to put a barrier around the wheat when it is cut using either cresote or coal tar lime, or dusty furrow. If the bugs get on the corn, they may be killed by spraying with strong tobacco solution or kerosene emulsion. Only the outer rows are sprayed in such cases. Please let me know of any outbreak.

Kerosene Emulsion: Dissolve one pound of common soap in a gallon of soft water by boiling, remove from the fire and add two gallons of kerosene, then with a spray pump force the mixture back into itself for about five minutes until it presents the appearance of cream and no longer separates on a standing. This is the undiluted solution. For 10 per cent solution add 17 gallons of soft water to the three gallons.

Wanted—Boy to work few hours in store—good wages. High school boy preferred. Apply C. J. Deppe & Co.

THRESHMEN MUST REPORT ON WHEAT.

Washington, D. C., June 21.—Under the authority of the Food Control Act, the Bureau of Markets of the United States Department of Agriculture is to require from all threshermen in the country periodical reports on the number of bushels of wheat threshed and the acreage from which the grain was produced. A list of threshermen is being compiled from all available sources by the Bureau of Crop Estimates, which is cooperating in the undertaking, and the Bureau of Markets is having printed a supply of blank forms for threshing reports, together with a pocket memorandum book for daily records.

Reports will begin with the opening in June of the winter-wheat harvesting season. The county agents will aid in distributing the schedules and memorandum books and will also assist in assembling the results.

The results are to be made available for the use of the United States Food Administration, the Federal Trade Commission and other branches of the Government. They are expected to provide a complete and accurate check on the advance wheat figures of the Bureau of Crop Estimates in the same way that the cotton-ginning reports, compiled by the Bureau of Census, check the cotton estimates.

AUTOMOBILE BARGAINS.

For sale, a Country Club Overland and a 90 Overland Touring car; both practically new cars. Bargains for somebody. J. F. Claus Motor Co., Home of the Oakland.

A CROSS COUNTRY AUTO PARTY

Dr. G. A. Hulett of Springfield drove over to the city in his automobile Thursday to visit his sisters, the Misses Hulett and Mrs. Belle Scott at the Oakes. He took back with him to Springfield Mrs. Scott and daughters, Miss Marie and Mrs. Joseph Johnson and baby and yesterday set out by auto for Terre Haute, Indiana.

Mrs. Johnson's home. Mrs. Scott and Marie will visit there a time.

Berkshire cooked ham. Douglas Store.

It is said that an entire organization of the finances of the Holy See will be necessitated by the extraordinary expenses laid upon the Vatican by the war in the way of charities, pensions and relief contributions.

SENATORS WIN IN THIRTEEN INNINGS

Milan Makes Up For Error In Ninth by Driving In Winning Tally For Washington—Other American League Results.

New York, June 21.—After a miff by Milan permitted New York to tie the score on Washington with two out in the ninth inning today, the same player drove in the winning for Washington in the thirteenth, the visitors winning the third game of the series by a score of 3 to 2.

New York scored both of its runs on errors. It was Johnson's twelfth victory of the season. The score:

We Are Sorry to Announce On June 25th, the Famous Chevrolet Automobile Will be Advanced in Price

—but we are very fortunate in having obtained a limited number of cars before this advance; and they were not driven but shipped in. Every well informed automobile driver knows the worst thing for a new car is to drive it from the factory a long distance, as it is impossible to get men who are careful enough to drive at a proper speed which is necessary with a new motor. The motor with the valve-in-head is the short-cut to maximum power. Its superiority is founded on simple, common sense principles. The absence of valve cages eliminates sixty-four unnecessary parts.

The Chevrolet Has Real Value

The motor is very accessible, being fitted with a detachable head. The entire top of the cylinders can be removed easily to permit access to the interior. This motor has earned for itself a world-wide reputation. It has exceptional power and speed. Also, is very economical in the use of fuel.

You must act early to reap the benefit of having **Power, Beauty and Strength**, for a small outlay of money. See us TODAY.

TIMELY SWATTING WINS FOR PIRATES

Pittsburgh Defeats Chicago by 3 to 0 Score—Steele Keeps Cub Bingles Well Scattered—Other National League Games.

Pittsburgh, June 21.—Pittsburgh defeated Chicago 3 to 0 today thru the timely hitting of Fred Mollwitz, who in three times at bat with men on third, singled twice and the third time pounded out a long sacrifice fly to right field, thereby chasing in the runs. Steele kept Chicago's hits scattered until the ninth when the visitors got two, but Steele struck out the last man. Tyler was hit twice in each of three innings.

Brooklyn, June 21.—Brooklyn defeated New York today 1 to 0 in a game in which only 28 New York batsmen faced Rube Marquard and only two were credited with hits. Brooklyn's lone run was made in the seventh when Olson bunted safe, was advanced on Daubert's infield hit and reached home on a wild throw by Zimmerman.

Summary:
Double play—Marquard, Doonan, Daubert. Struckout—by Marquard 2.

St. Louis, 12; Cincinnati, 6.
St. Louis, June 21.—Toney and G. Smith were victims of a batting festival today. St. Louis hammered these pitchers for a total of 33 bases and beat Cincinnati 12 to 6. Gonzales led the attack with a home run, two

doubles and two singles in five outs at bat. It was Snyder's last game with the Cardinals. He departs for the National Army tonight.

Score:
Cincinnati 000 022 101—6 16 1
St. Louis 820 011 00x—12 20 1
Batteries—Toney, G. Smith and H. Smith; Meadows and Gonzales.

Philadelphia, 10; Boston, 6.
Philadelphia, June 21.—Stock's batting and brilliant fielding were features of Philadelphia's 10 to 6 victory over Boston today. With the score tied in the fifth inning Stock's circuit drive, also with a man on base put the locals ahead. Main hit batsman and doubled, three and Oeschger was called to the rescue. A great stop by Stock ended the game with the bases full.

Score:
Boston . . . 300 000 003—6 10 1
Philadel. . . 300 020 23x—10 16 0
Batteries—Upham and Wilson; Main, Oeschger and Burns.

REGISTRATION DAY IN DOMINION

Canada Will Make Roster of Men Available for Army Service.

Ottawa, Ont., June 21.—Bright and early tomorrow morning an army of registrars will set forth on their mission of "counting the noses" thruout the Dominion of Canada before the set of the sun. It will be the national registration day, the day set apart for the Dominion to take stock of her man and woman power to meet the military and industrial requirements of the war. From Halifax to Vancouver and from the bleak shores of Hudson Bay to the southern boundary line, the registrars will gather statistics concerning every man and woman in the country over the age of 16 years. On the results of this special census the Government will base its calculations for its measures in the future in the way of holding up the strength of the Canadian contingents fighting overseas and at the same time providing for home industries with a labor supply to meet the existing demands.

As every British subject over the age of 16 years is required to register, it is estimated the number of registrations will be in the neighborhood of five million. The officials required for the work which will be finished in one day are as follows. Seventeen superintendents, 231 registrars, which is practically one for every electoral district in the country and 33,000 deputy registrars who will be in charge of the registration booths which for the most part will be located in public buildings. These booths will be opened from 7 a. m. to 10 p. m.

Owing to the difficulty of securing clerical help and also of office accommodation in Ottawa the work of tabulating the information which will be secured will be performed in Toronto. It is estimated by the Civil Service Commission that it will require 450 persons to collate the information half of whom will be French, as close on this proportion of fourds will be answered in the French language.

The seriousness of the registration may be gathered from the fact that any person failing to register will be liable to a fine of \$100, will lose his vote, forfeit his right to employment of any kind within the Dominion, cannot travel on any public conveyance, nor will may hotel or similar house of accommodation be allowed to give him lodging.

The first appeal of the public to comply with all the requirements of the act will be made from a patriotic standpoint; the second will be an appeal to duty, and the third and last appeal, for those who refuse to sign, will take the form of a penalty under the law.

In carrying out the registration considerable responsibility will be placed upon the large employers of labor, who in a large measure will be held responsible for the registration of their employees. The heads of factories, transportation systems and other industries who do not co-operate in the movement will find themselves in a very difficult position, as the regulations provide for severe punishment for those refusing to sign. Those factories which do not make every employee sign will be under suspension and will be visited by officers the first of next week, and in event of any employee being found unregistered the owners and managers will be subjected to the full penalties of the law.

Identification of every resident in Canada regarding his or her

He Removed the Danger Signal

Frank W. Sherman, Laconia, N. Y., writes: "I suffered with kidney trouble, had a tired feeling in my back, did not have any ambition and felt all tired out. I used Foley Kidney Pills and in a few days began to feel better, and now I have entirely recovered and have had no return of my painful symptoms."

One cannot help becoming nervous and feeling tired and worn out when the kidneys fail to filter and throw out of the system the poisonous waste matter that causes kidney troubles and bladder ailments.

Backache is one of Nature's danger signals that the kidneys are clogged up and inactive. It is often followed by rheumatism, annoying bladder or urinary disorders, puffy swellings under the eyes, swollen ankles and painful joints.

Foley Kidney Pills get right at the source of trouble. They invigorate the kidneys to healthy action and when the kidneys properly perform their functions the poisonous waste matter is eliminated from the system. J. A. Obermeyer & Son.

nationality, occupation and what he or she is capable of doing if called on, is absolutely necessary for the Government to establish that industrial effort may be centered on the most essential occupations and permit of men being drawn from the less vital industries to re-inforce the soldiers at the front; so that concentration will be placed on Canada's increase in the production of foodstuffs, munitions and other materials essential to the winning of the war; and to aid in the system of compulsory rationing during the continuance of hostilities.

AGRICULTURAL COLLEGE EDITORS

Knoxville, Tenn., June 21.—Ways of encouraging agricultural production and thereby helping to win the war are to be discussed by the American Association of Agricultural College Editors, which met in annual convention today at the University of Tennessee. The attendance includes the editorial heads of State agricultural college and experiment station publications thruout the country.

NEW JERSEY G. A. R.

Atlantic City, N. J., June 21.—The famous Boardwalk was garbed in patriotic attire today in welcome to the Civil War veterans, their families and friends who have assembled from all parts of New Jersey for the State encampment of the Grand Army and the annual sessions of the several auxiliary bodies. A two day program of business and entertainment has been prepared for the gathering.

The Ladies' Aid society of Brooklyn church will give an ice cream social on the church lawn Tuesday evening, June 25th. Come.

Vatican grounds, their personal expenses amount to only about \$500 a year for food and clothing.

CHICHESTER'S PILLS

SOLD BY DRUGGISTS EVERYWHERE

MISS STIMSON SURVEY AIR ROUTE Chicago, Ill., June 21.—The decision of the Postoffice Department in regard to the establishment of a regular airmail service between Chicago and St. Louis will depend in large measure upon the report of Miss Katherine Stimson, who is to make a trial flight from this city to the Missouri metropolis tomorrow to survey the route. Miss Stimson is an experienced aviatrix, having recently made a long distance flight between Chicago and New York.

HALIFAX NATAL DAY.

Halifax, N. S., June 21.—This is a public holiday in Halifax, being the 169th anniversary of the founding of the city. Owing to the war, however, the festive and athletic events customary to the occasion in previous years were largely omitted from today's program. The observance consisted for the most part of historical exercises, patriotic addresses on the founding of Cornwallis in 1749.

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, and similar skin troubles. A little Zemo obtained at any drug store for 35c. \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses, soothes the skin and heals quickly effectively most skin diseases. Zemo is a wonderful, penetrating, disappearing liquid and is soothing the most delicate skin. It is not greasy, is easily applied and costs little. It today and save all further distress. The E. W. Rose Co., Cleveland, O.

A Purposeful Formula

Senreco's formula is not "just a little of this and a little of that."

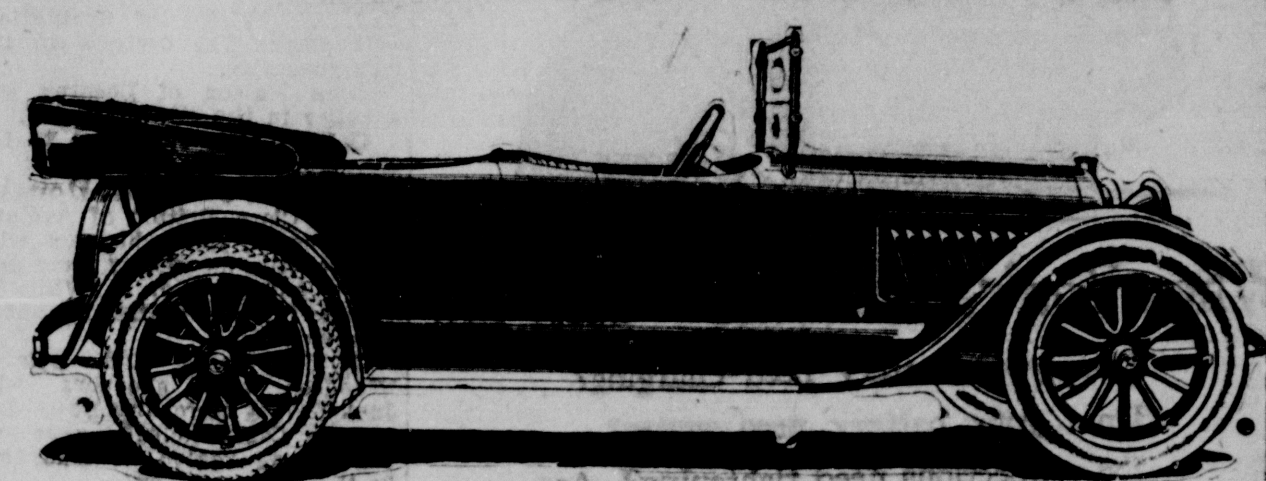

It was devised with a definite object in view.

The object was to produce a tooth paste possessing medicinal as well as cleansing properties—a real cleanser that could be depended upon to remove tartar and keep mouth and gums healthy. The ideal defined, our laboratories set about to determine the proper combination to produce it. Senreco is the result. It has been tried, tested and pronounced good by hundreds of the profession. Try a tube. A single tube will prove every claim. Will show why thousands today use and demand Senreco—and are satisfied with nothing less. All druggists and toilet counters. Large 2 oz. tube—35c.

Thirty-Six Years Without Loss to Any Investor

THIS is the record of S. W. Straus & Co., a house which was founded in Chicago in 1882 and which has since become a national institution, known from coast to coast for the **absolute safety** of its investments, **no client ever having lost a dollar of interest or principal in bonds purchased from us.**

The growth of S. W. Straus & Co. has been due to the safety and stability of the securities we sell—first mortgage 6% bonds and to the **protection we have given to the funds of our clients at all times and under all circumstances.**

Before you invest your savings **the first thing you should do** is to satisfy yourself that the investment banker you select to guide you is responsible, experienced and reliable. This is more important than anything else.

You Can Invest \$100 to \$1000 to Net 6%

S. W. Straus & Co. for 36 years has invested hundreds of millions of dollars for its clients without the loss of a dollar to any investor. **Think what this record means to you.**

It is because of this record that banks, insurance companies, and trustees of the most sacred funds in the world—bequests to widows, orphans, hospitals, churches and colleges—invest in First Mortgage 6% Bonds safeguarded under the Straus Plan.

Surely their example and judgment are worth following.

Write today for our book "6% On Your Savings With Safety." It tells you how to invest your money where there can be no danger of loss. It explains the **Straus Plan**, and tells how to safeguard investments. It describes the First Mortgage 6% Bonds we offer—tested, tried and sound. They can be bought in amounts of \$100, \$500 and \$1,000.

Write today and ask for

Book MC 254

You are entitled to 6% on your money. If you are not getting it your money is not working at 100% of its value.

FORMER JOURNAL MAN WRITES GRAPHICALLY OF EXPERIENCES WITH EXPEDITIONARY FORCES

Bernard Sheehan, Now With Twenty-Third Engineers, Stationed at St. Eloi on Banks of River Loire

The following letter received yesterday from Bernard Sheehan, son of Mrs. Ella K. Sheehan of East Morton avenue is of more than usual interest. Young Sheehan has been in France for a number of weeks and his graphic description of his voyage across and his experiences abroad is well worth a careful perusal. Bernard is a former Journal employee, and also well below the draft age, enlisted last summer and was for a time stationed at Camp Meade, Maryland. His letter is given herewith:

Somewhere in France,
May 22, 1918.

Dear Mr. Fay: Well at last I am over. I last wrote you from Camp Meade, Md. but since then a detachment of my boys was sent to Camp Glen Burnie, Md. It was a small camp, of tents built among a forest of immense evergreen pines. Never shall I forget the beauty of that place, nor those cool fragrant pines. Here we received our orders to move. Barracks bags were packed, packs were made up and we boarded a train for the port of embarkation. There we received an examination, and in the afternoon, we crossed the gangplank of our transport. We were on active service with the A. E. F.

All next day we were in the harbor. The sailors (Jackies) coaled and made ready for the trip while we landlubbers tried to get accustomed to the dozens of passageways. It was an old German passenger steamer and a very large one. It was beautifully finished, the woodwork and ornamentation. We were given Red Cross and Y. M. C. A. cards, on one side of which were the words, "I have arrived safely overseas" and a place for the soldier's name, on the other side a place for an address. These are addressed and only the soldier's name is written on the other side, no other writing. These are saved by

Summer Candies

—Because—

In this day of great competition, progression is a valuable asset to any man. Buy land and you will never regret it. Come in and see what I have to offer. I can fit you out with just what you want. Also in Insurance and Loans on real estate.

Norman Dewees

Ill. 56 307 Ayers Bank Bldg. Bell 265

as the cars and about eight feet long. The section is divided into two compartments and in each compartment there are two seats the width of the car facing each other, with about two foot space between the seats. Eight men and eight big packs filled things up a little. We had the usual fare when travelling, tomatoes, beans, hardtack and corned beef (lovingly nicknamed tinned Willie, canned horse, etc.). We had a great time trying to sleep, two men on one seat, three on the other, two on the floor and one in the hatchback. Imagine.

We were on that thing two days and two nights. We surely saw many sights. France is a beautiful country. I wish I could see it all. The farms are small but are given excellent care. The houses are made of last centuries, of stone and cement. Their fences are not ugly hedges, they are instead clean white stone walls, or mounds of earth about four feet high and three feet thick or well kept hedges. There are very few wire fences. And the roads! When I think of the comparative poverty of these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent. If France had our impassable roads and her light horses and lack of trucks, in peace time, she would starve. But how much better things would be if we had good roads when we somehow manage to get along with roads passable only by these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent.

That night, the last beam was made fast, the last load taken on. We were asleep. The next morning, when we went on deck, the sun was dazzling, the cool, invigorating salt breeze was blowing, and our boat was headed east with land nowhere in sight, we were going over.

We had beautiful weather the whole trip excepting two days. There was nothing to do but promenade the decks and read, and eat and watch boxing matches and listen to band concerts. We were on the water two weeks. One of the most beautiful sights I ever saw was the sun setting. It can't be described, it must be seen.

But how different from this calm when it is rough! The waves roll over and over, in a thousand ways. Two meet and crash together in white foam. And the winds tear around the boat dashing the cold spray over the deck and wetting any one without a slicker. The boat pitches and rocks, it seems fore and aft. It goes in every direction. The rough days were by no means bad the Jackies said, the waves were never over eight feet high. Very few boys gave certain signs of seasickness but at times, I must admit, I felt very funny at the throat and certainly had to summon all my reserve determination to prevent an open manifestation of seasickness.

To the fellows coming over, I would say to bring a good word for payday is very uncertain. Also if you have a Jackie friend get him to get some salt water soap or get the name of a reliable brand. No ordinary soap will lather in salt water. You might get some from a druggist. Also it is very foolish to fill one's barrack bag with tobacco as many of our fellows did. Take enough with you to last a month. It is cheaper over here than in U. S. A., the brands are usually limited to Piedmonts, Camels, Fatimas and Chesterfields. For smoking tobacco there are Tuxedo, Prince Albert and Edgeworth. These are what we usually get in this part of France at least. (I had one whiff of French tobacco and no more!) They have fine canteens on the boat.

We saw no subs but when I see the protection Uncle Sam has for his boys, I think it folly for anyone to worry—also for a sub to show itself!

Finally we sighted land and that afternoon we disembarked. We stepped on the dock, we were in France—at last.

They marched us up a long street of the town and a little bit of an engine pulling some box cars was the first thing we saw. It was such a funny sight. Some one said "to pry off the whistle and put the engine in somebody's pocket." The box cars were about half as long as ours with four wheels and on one side was painted Chevaux 8, Hommes 10. Of course you've read that in Empey's "Over the Top." But to appreciate it you've got to see those tiny cars. "Good night," I thought, "are they going to put 40 of us fellows with packs as big and weighing as much as a sack of flour in one of those things?" Well, I was down hearted. However it was at least delayed for they marched us about four miles to a big French barracks. It was about 9:00 p. m. and we were, dog tired. We had to sleep on the hard floor (nothing new) but that did not worry us. I could not have slept better on a feather bed. The next day we did nothing but try to keep warm. The salt breeze was bitter cold, in April too. Next morning however was warm and very nice. We were marched down town again and boarded third class compartment cars, eight men to a compartment. These French cars are divided into about four sections, each section separated by a wall the height and width of the cars. The sections are as wide

as the cars and about eight feet long. The section is divided into two compartments and in each compartment there are two seats the width of the car facing each other, with about two foot space between the seats. Their fences are not ugly hedges, they are instead clean white stone walls, or mounds of earth about four feet high and three feet thick or well kept hedges. There are very few wire fences. And the roads! When I think of the comparative poverty of these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent. If France had our impassable roads and her light horses and lack of trucks, in peace time, she would starve. But how much better things would be if we had good roads when we somehow manage to get along with roads passable only by these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent.

That night, the last beam was made fast, the last load taken on. We were asleep. The next morning, when we went on deck, the sun was dazzling, the cool, invigorating salt breeze was blowing, and our boat was headed east with land nowhere in sight, we were going over.

We had beautiful weather the whole trip excepting two days. There was nothing to do but promenade the decks and read, and eat and watch boxing matches and listen to band concerts. We were on the water two weeks. One of the most beautiful sights I ever saw was the sun setting. It can't be described, it must be seen.

But how different from this calm when it is rough! The waves roll over and over, in a thousand ways. Two meet and crash together in white foam. And the winds tear around the boat dashing the cold spray over the deck and wetting any one without a slicker. The boat pitches and rocks, it seems fore and aft. It goes in every direction. The rough days were by no means bad the Jackies said, the waves were never over eight feet high. Very few boys gave certain signs of seasickness but at times, I must admit, I felt very funny at the throat and certainly had to summon all my reserve determination to prevent an open manifestation of seasickness.

To the fellows coming over, I would say to bring a good word for payday is very uncertain. Also if you have a Jackie friend get him to get some salt water soap or get the name of a reliable brand. No ordinary soap will lather in salt water. You might get some from a druggist. Also it is very foolish to fill one's barrack bag with tobacco as many of our fellows did. Take enough with you to last a month. It is cheaper over here than in U. S. A., the brands are usually limited to Piedmonts, Camels, Fatimas and Chesterfields. For smoking tobacco there are Tuxedo, Prince Albert and Edgeworth. These are what we usually get in this part of France at least. (I had one whiff of French tobacco and no more!) They have fine canteens on the boat.

We saw no subs but when I see the protection Uncle Sam has for his boys, I think it folly for anyone to worry—also for a sub to show itself!

Finally we sighted land and that afternoon we disembarked. We stepped on the dock, we were in France—at last.

They marched us up a long street of the town and a little bit of an engine pulling some box cars was the first thing we saw. It was such a funny sight. Some one said "to pry off the whistle and put the engine in somebody's pocket." The box cars were about half as long as ours with four wheels and on one side was painted Chevaux 8, Hommes 10. Of course you've read that in Empey's "Over the Top." But to appreciate it you've got to see those tiny cars. "Good night," I thought, "are they going to put 40 of us fellows with packs as big and weighing as much as a sack of flour in one of those things?" Well, I was down hearted. However it was at least delayed for they marched us about four miles to a big French barracks. It was about 9:00 p. m. and we were, dog tired. We had to sleep on the hard floor (nothing new) but that did not worry us. I could not have slept better on a feather bed. The next day we did nothing but try to keep warm. The salt breeze was bitter cold, in April too. Next morning however was warm and very nice. We were marched down town again and boarded third class compartment cars, eight men to a compartment. These French cars are divided into about four sections, each section separated by a wall the height and width of the cars. The sections are as wide

as the cars and about eight feet long. The section is divided into two compartments and in each compartment there are two seats the width of the car facing each other, with about two foot space between the seats. Eight men and eight big packs filled things up a little. We had the usual fare when travelling, tomatoes, beans, hardtack and corned beef (lovingly nicknamed tinned Willie, canned horse, etc.). We had a great time trying to sleep, two men on one seat, three on the other, two on the floor and one in the hatchback. Imagine.

We were on that thing two days and two nights. We surely saw many sights. France is a beautiful country. I wish I could see it all. The farms are small but are given excellent care. The houses are made of last centuries, of stone and cement. Their fences are not ugly hedges, they are instead clean white stone walls, or mounds of earth about four feet high and three feet thick or well kept hedges. There are very few wire fences. And the roads! When I think of the comparative poverty of these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent. If France had our impassable roads and her light horses and lack of trucks, in peace time, she would starve. But how much better things would be if we had good roads when we somehow manage to get along with roads passable only by these people and their fine macadam roads and with our comparative surplus of money and our bad roads, it makes me think we are very inconsistent.

MEREDOSIA ALUMNI ENTERTAINED SENIORS

Program of Merit is Carried Out—Other News from Meredosia and Vicinity.

Meredosia, Ill., June 21.—The Alumni Association gave the graduating class of 1918, which was composed of Kenneth Looman and Merle Hodges a reception at the high school auditorium Monday evening. The room was beautifully decorated with the class colors, red, white and blue, the American flag and pennants of the different classes and the centennial flag. The following program was successfully carried out:

Selection—Orchestra.
Welcome Address to Class—Mrs. W. G. Looman, Pres.
Introduction of Class by C. W. McLain.
Welcome Address to Class—Verna Pond.
Vocal solo—Elmo Galaway.
Roll Call—Mrs. Albert Butcher Secy.
Selection—Orchestra.
Reading—Leta Schaefer.
Vocal solo—Esther Yeakel.
Alumni History—Mrs. F. W. Deppe.

The guests were then seated at tables and served with ice cream and cake. C. W. McLain acted as toastmaster. Toasts were given by Rev. D. L. Jeffers, Kenneth Looman, Verna Pond and Margaret Cody.

Following is the history of the Association: Was organized in 1886 by Prof. J. B. Blazer with Manford Schroll as president. The first reception was held at the home of Mrs. J. P. Baujan. The number of graduates up to this time was nineteen, nearly all of whom were present at this reception. The first class graduated in 1881, composed of Miss Fannie Wackerle, now Mrs. J. R. Harker of Jacksonville and Mrs. Alice Luck Davis of Decatur. Soon after this the organization became defunct and was reorganized and became defunct again until 1916 when Prof. O. W. Gould as leader re-organized the society and Mrs. G. Looman was chosen president and plans made and a successful reception given the class of that year.

There have been thirty seven commencements, 149 have finished the course, sixteen of whom are now deceased, twenty nine of these graduates have been and are now teachers in the public schools. One has been postmaster, one an actress and author, eight made special study of music, three graduated from Illinois College, Jacksonville, two graduated from Woman's College in Jacksonville, one from Smith College, one from Rush Medical College. One in service of Uncle Sam's government and five more expect to go soon, one in Australia, and others filling important places in different parts of our country.

Mr. and Mrs. Howard Beeley and daughter of Princeton are visiting Mr. and Mrs. Thomas Beeley.

Mr. and Mrs. Orin Hale arrived Wednesday from Wichita Falls, Texas, to visit the former's parents, Mr. and Mrs. W. J. Hale. Orin will leave the 28th of the month with the four hundred from this county for Camp Taylor, Ky.

Mrs. S. I. Harwood of St. Louis is visiting her parents, Mr. and Mrs. W. J. Hale.

Mr. W. J. Sylvester Bau departed Tuesday for their home in Lansing, Ia., after visiting his parents, Mr. and Mrs. J. P. Baur. A large number from here took in the moonlight excursion of the steamer Columbia to Griggsville Landing and return Tuesday evening. The Columbia will run an all day excursion from Bedford to Beardstown the fourth of July.

Miss Flora Kiel returned home from the hospital in Springfield where she has been for a number of weeks, where she was operated on for mastoid abscess. At a special meeting of the Village Board Tuesday evening, they voted to oil Main street from the public well to the corporation limit.

Mrs. Clyde Arnold and son Delbert of Springfield were guests of Mr. and Mrs. Charles Winghamham Wednesday.

Arthur Hancock who has been visiting with Earl Hyde at Camp Taylor, Ky., returned home Monday.

Mrs. Mary Brockhouse has returned home from a visit with her son Emil at Camp Taylor, Ky.

The oil for the White Triangle trail from this city to Chapin has arrived and is being placed by Wm. Cocking of Jacksonville who also furnished the oil.

Miss Ruth Hughes is spending the week with friends in St. Louis.

Harry Ham has enlisted for service in the Aviation Corps and has been stationed at the Great Lakes Naval training station.

A number of farmers have begun the harvest of their rye this week.

Rudolph Duvendack arrived home Thursday on a three days furlough from Camp Taylor, Ky., to visit his parents, Mr. and Mrs. J. W. Duvendack. He reports other Meredosia boys as being well.

Mrs. H. E. Harms and daughter Delouise arrived home Thursday from a three weeks visit in St. Louis. They were accompanied home by Miss Lucille Schumann.

Mrs. Jesse Davenport and son Philip and Mrs. Harry Masterson of Springfield visited Mr. and Mrs. Charles Winghamham Thursday.

Byron Summers of Jacksonville is visiting his grandmother, Mrs. Texa Summers.

ATTENTION THRESHERMEN
A meeting of the threshermen of Morgan county is hereby called to be held at the Ayers National Bank, Saturday, June 22nd, at 2:00 p. m., for the purpose of considering matters that are of importance to the threshing interests at this time.

A full attendance is requested. M. F. Dunlap, Food Administrator.

U. S. TO USE NEW FIGHTING AIRPLANE

WASHINGTON, June 20.—Preparations for adding a fast single-seated fighting aeroplane to the American aircraft production program are underway. The machine selected is understood to be a development of a modern British pursuit plane which has been used with great success on the fighting fronts. Details of the construction and performance of the machine have not been made public.

Thus far construction of single-seated fighting planes has not been undertaken in this country. The equipment for American aviators at the front having been turned out by French and British. It was decided by General Pershing that the single-seated types of planes changed so rapidly that the long distance between the fighting front and the place of manufacture would make it impossible to keep the American equipment up to date if it was produced at home.

ICE CREAM SUPPER

There will be an ice cream supper, Hebron church, near Sinclair, Saturday night, June 22, given by the Helping Class. Everybody invited.

SUFFERED AGONIES WITH HER HEAD

Was Almost Desperate Says Arkansas Lady, But Relief Finally Obtained Thru Use of Cardui

Ft. Smith, Ark.—Mrs. I. B. Clift, of this place, writes: "I am the wife of a groceryman in Ft. Smith, also Van Buren, Ark. For the benefit of my friends and all other women, I am writing this. I have been troubled all my life with... All my life, from the time I was 13 years old, I suffered agony with pain in my head... Our family physician doctoring me but did me no good. A friend told me about Cardui, and how much good it had done for other women. I was almost desperate, so decided to try it. I took two bottles... and felt so much better in every way that I took another bottle, then another, which made my fourth bottle. That has been five years ago, and I have been ever since. I think Cardui a wonderful medicine, and I advise all women, who suffer from womanly troubles, to take it."

Cardui is recommended for weak, ailing women, who need a strengthening, tonic medicine to help build them up, and assist in restoring normal, natural conditions. If you suffer, as most women do at times from womanly troubles, try Cardui, the woman's tonic. Forty years of successful use are back of it. At all druggists.

Take this Opportunity to Learn all about Refrigerators

THIS IS LEONARD WEEK—JUNE 17 TO 22

Make it a point to come to our store—see our special display and let us tell you all the advantages of the famous Leonard Cleanable.

For the benefit of our customers, we set aside this week to make a special display of Leonard Refrigerators. It will be your opportunity to get the inside facts about refrigerators and refrigerator construction.

We take a special pleasure in explaining the features of the Leonard Cleanable to our customers. Its many points of superiority are easy to demonstrate and to understand. Leonard Cleanable Refrigerators have a one-piece porcelain lining made of three coats of the finest porcelain lining on a basis of Armo Rust-Resisting iron. It cannot break, crack or chip. It has rounded inside front corners—an exclusive, patented Leonard feature.

Ten Walls Save Your Ice
The Leonard Cleanable has ten insulated walls to keep the heat out and

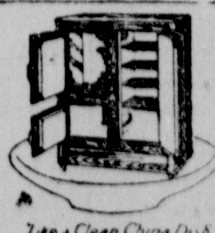

the cold in. You will note the saving in your ice bills with this refrigerator.

Moreover, the perfect circulation of air is worked out on a strictly scientific basis. The air-tight locks make the door practically self-closing.

A Permanent Investment

A properly built refrigerator should last you a life-time. For this reason it is economy to select a refrigerator that has been made with all the skill and care of a fine piece of furniture. In brief, make your refrigerator purchase a permanent investment.

Don't fail to come in some time during the week and see the Leonard Cleanable and other models. Even though you are not planning to buy a refrigerator right now—this is your chance to see all the models and plan just what kind you need.
